FOREIGN NEWS.

The Bering Sea Matter Bobs Up in the Commons.

Prince Bismarck Utters a Warning Against Dissolution.

President Carnot's Son Objects to Bribery Insinuations.

English Royal Weddings in Prospect—A Member of the Prince of Wales' Set in the Police Court—Notes.

By Telegraph to The Times.

LONDON, March 24.—[By Cable and Associated Press.] In the Commons today Gibson Bowles asked whether the arbitration between Great Britain and the United States regarding Bering Sea would be effected by the alleged right of Russia to interfere with sealers westward of an imaginary line assumed to be drawn across the sea by the Russia-American treaty of 1867. "Did the government?" Mr. Bowles asked, "intend to arbitrate on Russian claims?"

Sir Edward Grey, Parliamentary Under Secretary of the Foreign Office, replied that the honorable member misrepresented Russia's claim. Sir Edward added he could not communicate to the House correspondence disclosing the position of the British government on the subject until the reply expected from Russia was received.

The House of Commons tonight passed, by vote of 276 to 229, a resolution that in the future all members be paid for their services in Parliament.

The House adjourned at 5 o'clock. Exciting scenes accompanied the application of the closure to pass the army estimates.

BISMARCK'S WARNING.

Another Government Reverse Likely to Occur.

NEW YORK, March 24.—[By the Associated Press.] The Post's Berlin special says: "Bismarck, in the *Hamburger Nachrichten*, utters a warning against dissolution, which can only result in another government reverse. It would be far better," he says, "to abandon the Army Bill now and reintroduce a modified bill at a more favorable period than to resort to arbitrary methods."

"It transpires that Rector Ahlwardt, before the Committee of Inquiry, confessed that his papers had been stolen, and begged the committee to treat the confession as confidential. Chancellor Caprivi threatened to quit the committee if the request be granted."

MEXICO'S FINANCES.

Banks Pressing Borrowers in Consequence of Failures.

CITY OF MEXICO, March 24.—[By the Associated Press.] The banks have recently been pressing borrowers in consequence of reports from the interior announcing several large failures of concerns of a speculative nature. The mercantile community is generally entirely solvent. The tremendous premium on foreign exchange, resulting from the depreciation of silver, has had the effect of diminishing importations of goods from Europe, such as cotton textiles and paper. In this way the government finds the custom-house collections decreased. It is said that the question of stimulating imports by a reduction of tariff rates will be considered.

AN INDECENT LORD.

A Member of the Prince of Wales Set in the Police Court.

LONDON, March 24.—[By Cable and Associated Press.] George Manners Astley, who has a seat in the House of Lords as Baron Hastings, was arraigned at the Marylebone Police Court today, on a charge of having indecently toward a girl in Regent's Park. His Lordship, who is about 82 years of age, looked very much ashamed of himself when he was called up to answer to the charge. Evidence of his disgraceful conduct was so clear that the Court found him guilty and sentenced him to pay a fine of £50 or be imprisoned for three months. The case has caused a sensation, as Astley moved in the Prince of Wales' set, and the Princess of Wales stood sponsor for his daughter, Alexandra Rhoda. The Baron is Captain of the Second Brigade, Eastern Division of the Royal Artillery, and Justice of the Peace for the county of Norfolk. He was married to the daughter of the fifth Lord Suffield, and has five children.

MORE BOODLE TALK.

A Son of President Carnot Rises to Explain.

PARIS, March 24.—[By Cable and Associated Press.] Although President Carnot has kept silent under all the charges and insinuations coupling his name with Panama, the members of his party are not inclined to be equally patient. Ernest, a son of President Carnot, has written to the *Éclaire*, complaining of a question published in that newspaper from a German newspaper to the effect that he (Ernest) had received money in 1888 from the Panama Canal bribery fund. Ernest states that at the time mentioned he was only 21 years of age, and a student in the School of Mines and entirely unknown in political circles. He therefore denounces as infamous the statement that he received any Panama money. The newspaper that published the article against President Carnot is the *Berliner Tageblatt*. The indignation caused by the insinuations against the President are being exploited by the government. It is reported that a decree for the expulsion of Herr Brandes, the *Tageblatt*'s Paris correspondent, has been signed.

William Purcell was killed and Patrick Maley and John Morgan were probably fatally injured, and David G. Davis and William James seriously hurt.

The Ulster Agitation.

LONDON, March 24.—The Ulster agitation is assuming a form which will call seriously for the intervention of the government. A secret committee has issued a manifesto from Belfast summoning the national Irish constituency to attend a conference whereat they may arrange to organize themselves, despite all rules of the service to the contrary. The manifesto adds that those who are punished for partaking in the movement will receive cash indemnity.

Royal Marriages.

NEW YORK, March 24.—The Herald's London correspondent says he is enabled upon most reliable authority to foreshadow a marriage that is likely to excite wide sympathetic interest. According to his informant the approaching formal announcement of the engagement of the Duke of York to Princess May will be accompanied with that of the engagement of Princess Maud of Wales to Lord Roseberry.

Wants an Accounting.

NEW YORK, March 24.—George Rice has begun action in the Supreme Court against the trustees of the Standard Oil Company on behalf of himself and any other certificate holders who desire to join with him for an accounting under the trust agreement made January 2, 1882, and under the accounting and dissolution trust agreement of October, 1882.

A Receiver Wanted.

CHICAGO, March 24.—Nathaniel C. Foster of Farchild, Wis., applied today in the United States Circuit Court for a receiver for the Southern Land and Lumber Company of Chicago. Foster puts the liabilities at \$150,000. He says that sales have been made on such long time that the company is unable to get ready cash to meet liabilities.

Wreck on the Atlantic and Pacific.

WINSTON, March 24.—Fireman Stone was killed and Engineer Robert Young severely injured in a collision on the Atlantic and Pacific, near Ash Fork, last night. The wreck was caused by a blinding snow-storm, which rendered the signals indistinguishable.

Assets and Liabilities.

SYDNEY, March 24.—The liabilities of Sir George Richard Dibbs, Premier of New South Wales, are estimated at \$150,000; assets, mostly land, \$25,000.

on three months, and has been contested with unexampled stubbornness by the strikers, who have endured the greatest privations of cold and hunger through the winter.

Proposed Pacific Cable.

BRISBANE, March 24.—The intercolonial postal conference has agreed to a resolution to establish a Pacific cable between Australia and Vancouver.

BLUE ENVELOPES.

Conductors Dismissed for Defrauding the New York Central.

NEW YORK, March 24.—[By the Associated Press.] Ominous blue envelopes have been received in the past few days by six conductors of the New York Central road, five of the Rome, Watertown and Ogdensburg and two of the West Shore. An envelope means that its recipient is dismissed from the service of the railroad company. Officers of the railroad company are in possession of the names of business men, saloonkeepers and drummers, who have been in a conspiracy with the conductors to defraud the company by buying of conductors tickets which had already been used.

DEATH OF COL. SHEPARD.

The Editor of the Mail and Express Suddenly Expires.

His Death, Entirely Unexpected, Followed an Administration of Ether, Preceding an Operation by His Family Physician.

By Telegraph to The Times.

NEXT, March 24.—[By Cable and Associated Press.] Col. Elliott Fitch Shepard, editor of the Mail and Express, died suddenly this afternoon at his home, No. 2 West Fifty-second street. His death followed an administration of ether by Dr. Charles McBurney and the family physician, Dr. J. W. McLane, who were about to make an examination to ascertain whether the Colonel's suspicion that he suffered from stone in the bladder was correct.

Up to this morning Col. Shepard attended to business in his usual way. Last evening he merely told Manager A. B. de Frece that he probably would not be down on Friday, but he would be there Saturday afternoon. Before the arrival of the doctors, he complained of severe pains, and called up the Mail and Express and gave a number of instructions about the future conduct of the newspaper, in case anything should happen to him. Later the distress he suffered left him, and, when the physician and nurse came in, he was in good spirits.

He induced his wife and youngest daughters, Margarette and Alice, who were at home, to go off to Scarborough for the day. His son, Elliott F. Shepard, Jr., was at home.

About 1 o'clock Col. Shepard said he was ready for the surgeons, and they, with the nurses, began the work of putting him under the ether. He had inhaled the drug but two or three times, when the physicians detected dangerous symptoms and stopped the inhalation. Col. Shepard sank rapidly and for some time it was feared that he could not be rallied. Powerful restoratives were administered.

At the end of an hour's work with oxygen he was restored to partial consciousness, and continued to apparently rally until 4 o'clock. Then, without warning, and for no apparent reason, he began to rapidly sink. The oxygen treatment was resumed, but it was of no avail. At 4:20 o'clock he died. He was unconscious and death was peaceful.

The cause of death as given by the coroner was oedema of the lungs.

Immediately before Col. Shepard's death messages were sent to Mrs. Shepard announcing he was very low and might not live. She reached the house at 6 o'clock. Immediate friends of the family soon began arriving. There was a string of carriages continually at the Fifth Avenue side of the house all the evening. At a late hour no arrangements had been made for the funeral.

Elliott Fitch Shepard was born in Jamestown, Chautauqua county, N. Y., July 25, 1858. He was educated at the University of the City of New York, and admitted to the bar in 1888, and for many years practiced in New York city. In 1881 and 1882 he was aide-de-camp on the staff of Gov. Edwin D. Morgan, and in command of volunteers at Elmira, N. Y., and aided in organizing and equipping and forwarding to the field nearly fifty thousand troops. He was instrumental in raising the Fifty-first New York Regiment, which was named for him the Shepard Rifles. He founded the New York State Bar Association in 1878, which formed the model for the organization of similar associations in other States. In March, 1888, he purchased the New York Mail and Express.

A Mexican Extradition Trial.

SAN ANTONIO, March 24.—The Mexican extradition trial of Ceicelio Ederra, another one of the alleged participants in the San Ignacio massacre, was begun here today before United States Commissioner Price. There are a number of witnesses to be examined, and the trial will occupy several days.

That Pool Tournament.

SYRACUSE, March 24.—The games played this evening in the pool tournament for the world's championship resulted as follows: Stewart, 125; Sherman, 78; Clearwater, 125; Walsh, 118. Dr. Orr, Stewart and Sherman are tie for first place. Clearwater won fourth money.

Firemen Injured.

CHICAGO, March 24.—The baking powder establishment of J. C. Grant was completely destroyed by fire tonight. The other firms in the building were slightly damaged. The total loss is estimated at \$100,000. Two firemen were injured by falling walls, but not fatally.

An Accomplice.

ATLANTA, Ga., March 24.—There was considerable excitement manifested here today over the arrest of Mrs. Jeanette Hammond, who is supposed to be implicated as an accomplice with Lewis Redwine, the defaulter cashier of the Gate City National Bank.

Receiver Appointed.

MACON (Ga.), March 24.—The Macon and Northern Railroad, leased by the Central Georgia, was today placed in the hands of a receiver. The Central failed to pay the interest on bonds due on March 1.

Death of a Judge.

PORTLAND (Ore.) March 24.—United States District Judge M. P. Deady died this morning.

Spinners' Strike Ended.

MANCHESTER (England), March 24.—An agreement has been reached between the spinners and their employers by which the great cotton mills strike will end on Monday. The spinners agree to a reduction in wages of seven pence per pound. This strike has been

TRAIN WRECKERS.

Attempt to Ditch an Ann Arbor Railway Train.

Manager Ashley's Caustic Reply to Grand Chief Arthur.

The First Lockout Occurs in the New York Cutters' Trouble.

New Orleans Street Railway Employees Indulge in a Strike Over a Matter of Sentiment—Other Strikes.

By Telegraph to The Times.

TOLEDO, March 24.—[By the Associated Press.] Considerable excitement was occasioned here by an attempt made last night to wreck a passenger train on the Ann Arbor road. The train was about one mile north of Owosso when the accident occurred. Ashley, manager of the Ann Arbor, says this is not the first difficulty the road has had to contend with since the commencement of the strike, and issued a notice offering \$1000 for the apprehension of the culprits.

[Signed] FRED A. ABMETH.

ASHLEY REPLIES.

The Railroad Manager's Answer to Chief Arthur's Charges.

TOLEDO (O.) March 24.—[By the Associated Press.] General Manager Ashley of the Ann Arbor road gave out today a reply to Chief Arthur's statement made last night. He says the company pays its freight engineers \$8.60 per hundred miles and overtime after fourteen hours at 30 cents an hour. The men are not classified. Ninety per cent. of the engineers run freight, only seven men being engaged in the passenger service.

The men on these passenger runs earn from \$100 to \$1400 per year for services of eight hours or less per day. The freight engineers earn between \$100 and \$140 per month. Ashley says the strike was ordered at a meeting of less than twenty out of a total of forty-six members of the brotherhood employed on the road.

"Chief Arthur," he says, "ordered or approved both the strike and boycott, not only with the knowledge that both were illegal, but with the knowledge that the United States Court had issued a mandatory injunction to men on connecting lines not to refuse to handle Ann Arbor cars. Yet, Mr. Arthur advertises himself as a law-abiding citizen.

Up to this morning Col. Shepard attended to business in his usual way. Last evening he merely told Manager A. B. de Frece that he probably would not be down on Friday, but he would be there Saturday afternoon. Before the arrival of the doctors, he complained of severe pains, and called up the Mail and Express and gave a number of instructions about the future conduct of the newspaper, in case anything should happen to him. Later the distress he suffered left him, and, when the physician and nurse came in, he was in good spirits.

He induced his wife and youngest daughters, Margarette and Alice, who were at home, to go off to Scarborough for the day. His son, Elliott F. Shepard, Jr., was at home.

About 1 o'clock Col. Shepard said he was ready for the surgeons, and they, with the nurses, began the work of putting him under the ether. He had inhaled the drug but two or three times, when the physicians detected dangerous symptoms and stopped the inhalation. Col. Shepard sank rapidly and for some time it was feared that he could not be rallied. Powerful restoratives were administered.

At the end of an hour's work with oxygen he was restored to partial consciousness, and continued to apparently rally until 4 o'clock. Then, without warning, and for no apparent reason, he began to rapidly sink. The oxygen treatment was resumed, but it was of no avail. At 4:20 o'clock he died. He was unconscious and death was peaceful.

The cause of death as given by the coroner was oedema of the lungs.

Immediately before Col. Shepard's death messages were sent to Mrs. Shepard announcing he was very low and might not live. She reached the house at 6 o'clock. Immediate friends of the family soon began arriving. There was a string of carriages continually at the Fifth Avenue side of the house all the evening. At a late hour no arrangements had been made for the funeral.

Elliott Fitch Shepard was born in Jamestown, Chautauqua county, N. Y., July 25, 1858. He was educated at the University of the City of New York, and admitted to the bar in 1888, and for many years practiced in New York city. In 1881 and 1882 he was aide-de-camp on the staff of Gov. Edwin D. Morgan, and in command of volunteers at Elmira, N. Y., and aided in organizing and equipping and forwarding to the field nearly fifty thousand troops. He was instrumental in raising the Fifty-first New York Regiment, which was named for him the Shepard Rifles. He founded the New York State Bar Association in 1878, which formed the model for the organization of similar associations in other States. In March, 1888, he purchased the New York Mail and Express.

CAR DRIVERS STRIKE.

NEW ORLEANS, March 24.—About 2 o'clock this afternoon, in accordance with a resolution adopted last night by the Car Drivers Union, the men began to leave the electric cars as they reached the station, and by 4 p.m. there was not a car running on the Carrollton line. The strike is apparently on a question of sentiment, the railway company having failed to reply to conditions received from the car drivers.

Carpenters Walk Out.

CHICAGO, March 24.—The carpenters' lockout commenced.

NEW YORK, March 24.—The lockout of the clothing cutters belonging to the United Garment Workers was begun this evening by the establishment of A. Levy & Co. Officials of the association refuse to give the names of members who will lock out their men tomorrow.

Carpenters Walk Out.

CHICAGO, March 24.—There were numerous strikes among the union carpenters today on work controlled by contractors who have not yet signed the union agreement. A general strike is looked for April 1, if terms are not reached.

State Bible Society.

The annual meeting of the California Bible Society was held Wednesday afternoon in San Francisco. Very few members were present, and action on most of the business was postponed until the next meeting, which will be held in about a month. The annual election of officers took place, and nearly all the incumbents were re-elected. Annie Merrill was again chosen president, William Abbott, secretary; Edward P. Flint, treasurer. The twenty-five vice-presidents were re-elected with but two exceptions.

The report of District Superintendent John Thompson, D.D., was made verbally, as he has just returned from a trip to Los Angeles. The report showed fair progress. A written report will be made at the next meeting.

A special committee, Messrs. Rankin, Wright and Beals, was appointed on reorganization of the work of the society.

AMUSEMENTS TONIGHT.

GRAND OPERAHOUSE—The Minstrels. (Matinee.)
LOS ANGELES THEATER—A Night on the Bristol. (Matinee.)
PARK THEATER—The French Spy. (Matinee.)

THE TIMES READY-REFERENCE SHEET.

A convenient and useful thing, not only to strangers and tourists, but to citizens of Los Angeles, would be a READY-REFERENCE SHEET of popular local information, giving the names and location of the chief transportation lines, the leading hotels, churches, public buildings, secret societies, boarding-houses, restaurants, suburban resorts, ivy-covered banks, real-estate and insurance agents, attorneys, physicians, etc.

Such a sheet THE TIMES is preparing to put out. It will contain, besides the above lines of information, a long list of business cards, making it particularly useful to business men.

THE READY-REFERENCE SHEET, occupying a page of THE TIMES, will run through a full edition of 15,000 copies of the paper, and be printed, besides, on a large number of card sheets for special circulation and permanent posting.

An agent will call upon business men, explain details and give prices. Full information can also be had at this office.

The season of tornadoes in the South and West seems to have opened up again with the usual disastrous results. People in the afflicted districts may as well take to their cyclone cellars and stay there.

The San Francisco Report thinks that next session the Sacramento newspapers will have wood cuts illustrating "Members of the Legislature at Church," "The Wednesday Evening Prayer Meeting of the Senate," "The Speaker and his Sunday-school Class," etc. It may be.

It is seriously estimated that there are about one million Democrats who either want office or wonder if it may not fall to them. And there are 60,000 fourth-class postoffices, mostly manned by Republicans. The tantalizing question is: How can 60,000 be stretched into 1,000,000.

A New York paper offers \$500 for a correct report of the dialogue between President Cleveland and Senator Hill on the occasion of their late interview. It is a handsome proposal surely, but probably money would be no temptation to either Mr. Cleveland or Mr. Hill, and there is nobody else who could rake in the plum.

It now develops that the bill introduced in the Legislature creating the county of Tehachapi out of the northern end of Los Angeles county and the southern end of Kern, was only a joke perpetrated by the way of the Assembly. All the same, the people up that way expect to call for a county some day, and get it. All they require is population enough.

John Jump of Terre Haute, Ind., has vaulted into the Democratic arena as a contestant for spoils. A New York paper suggests that this gentleman with the vaulting ambition and a name to correspond should be warmly greeted by Hoke, Dink, the Hon. Pod Dismuke and particularly by Mr. Stand Hope Potsdam Sams of Georgia, who wants to go to Persia.

One of the most recent acts of Mr. Sotoli in inaugurating the Pope's new policy was to restore his rights in the church to W. S. Bowen of Westchester, Pa. Mr. Bowen was excommunicated six years ago because he insisted on sending his children to the public instead of the parochial school. Now the ban is removed, and Mr. Bowen may continue sending his children to the public school, and be a Catholic in good standing at the same time. There is no doubt that the new policy is most acceptable to the American people generally.

A short time ago the daughter of B. W. Crowe, a reputable citizen of Nebo, S. C., earned her living by teaching a school for negro children. This made the Crowe family unpopular around Nebo, it being the opinion thereabouts that negroes are not susceptible to the refining influences of education. Mr. Crowe was warned that his daughter was not proceeding in accord with popular sentiment. Not much notice was taken of these threats and the school teaching went on. But it has lately been suspended indefinitely. The outraged citizens gathered in force, overturned the schoolhouse and destroyed all the books and maps and other aids to education. Mr. Crowe himself was waited upon and courteously informed that the influence of himself and daughter was not regarded as good in that locality, and they were given until April 1 to move on. They have decided to do just what they have done, glad, no doubt, to escape with their lives. And this is Mr. Cleveland's candidate of Civil Liberty.

osition. Many went further and offered to do all in their power to assist in bringing about this much-to-be-desired result. These communications embodied in the report to the Senate, to which was appended the draft of a bill as called for in the resolution. In addition to providing for making the office permanent, this bill makes many amendments in the census law, which have been suggested by the experience of the present and preceding censuses. For instance, one of the most important of these is the change in the compensation of the enumerators, allowing them \$8 per day instead of the present rate of so much a head. The advantages of this are obvious. Again, provision has been made for collecting many branches of statistics during the interval between enumerations, thus relieving the decennial census of the great strain resulting from overwhelming it with all these various inquiries simultaneously. Many minor changes of the law are incorporated in the bill, all of which are in the direction of simplifying the work and increasing the value of the results obtained.

The passage of this or some similar bill would in my judgment result in much more scientific methods of securing the statistics of the United States than are possible under the present system.

The Eleventh Census—A Permanent Bureau Required.

Robert P. Porter, Superintendent of the Census, publishes in the New York Commercial Advertiser an article in which he gives the present status of the census, and outlines many of the difficulties with which the department has had to deal. He also notes the special successes which it has scored over preceding enumerations. Mr. Porter says:

The work of the eleventh census is nearing completion. Two of the final volumes have been published and are ready for distribution. Of the remaining volumes many are partially in type in the Government Printing Office, and the others are almost ready to go to the printer, with the exception of the volumes on vital statistics, manufactures and agriculture, and that which will contain the results of the special investigation on farms, homes and mortgages. These volumes, with the possible exception of the last named, will, it is expected, be ready for publication some time during the present year.

But the public was not kept in waiting for the information to be embodied in the final volumes. As fast as results were obtained they were published in special bulletins, and these were mailed to newspaper offices, libraries, and to those specially interested in the enumeration. Over four hundred special bulletins were published, with a total of nearly 5000 pages. The press of the country has given a great deal of attention to these bulletins, and important facts which they embodied have thus been laid before the public in condensed and digested form.

For the first time in the history of census taking the population of the United States was officially ascertained and announced during the census year—in fact, within about two months from the actual completion of the enumeration—thus enabling Congress to provide for the reapportionment of Representatives at its immediately succeeding session, something entirely unprecedented. Mr. Porter says that this early publication of ascertained results has been one of the striking as well as novel features of the eleventh census, and has added very appreciably to the value of its returns. Rapidity of publication ranks next to accuracy in all matters pertaining to a census. Especially is this true of a country advancing with such strides as the United States, and in which economic conditions are constantly changing. The plan pursued has met with marked success and excited great popular interest in the census.

It must be conceded that the Census Bureau had great difficulties to contend with, and nobody will pretend that a work depending on so many thousands of people scattered over such a wide expanse of territory should be flawless. Notwithstanding the carping of the Democratic press, it is certain that the errors have been reduced to a reasonable minimum.

Concerning the future of the bureau Mr. Porter says:

My experience in the eleventh census has made me heartily in favor of putting the office on a permanent basis. Nor do I stand alone in this. It is astonishing what public interest has been aroused in this question. In 1890 hundreds of petitions were presented to both branches of Congress praying that the bureau be made permanent, and declaring that such a course would not only greatly enhance the value and increase the accuracy of statistical reports, but would result in great economy to the Government. In compliance with this popular demand the Senate passed a resolution directing the Secretary of the Interior to investigate this matter and prepare a draft of a bill to accomplish the object sought. This resolution having been referred to me, I opened correspondence with various prominent persons and associations throughout the country who would naturally be interested in a movement looking to the improvement of the present system of taking the census. The result was surprising, even to me. I received hundreds of replies from business men, medical men, statisticians, boards of trade, chambers of commerce and industrial organizations, representing all the largest and every section of the country, north, south, east and west, and all with a disinterested voice, heartily in favor of the prop-

manner. Of recent years the newspaper reporter of keen intuitions and a "nose for news" has given many pointers to the detective, and has helped to open up many a blind case.

The United States Mint at Philadelphia now contains the extraordinary amount of 110,000,000 ounces of bar silver, or sufficient for the coinage of 150,000,000 silver dollars, and besides this it holds some \$10,000,000 in coined silver. The vaults are full to overflowing, and it has been found necessary to have constructed a new steel-lined vault, which was completed about a week ago. It is 85 feet long, 8 feet wide and 10 feet high yet it will hold but 20,000,000 ounces piled full from floor to ceiling. As silver bullion is now being received at the rate of 3,800,000 ounces per month, this additional room will be filled within a half-year, and then will arise the necessity of occupying still other rooms should the purchase of silver by the Government be continued as at present.

The passage of this or some similar bill would in my judgment result in much more scientific methods of securing the statistics of the United States than are possible under the present system. Under a permanent bureau these statistics will be more economically gathered; they will meet more nearly the scientific standards of statistical comparison, and the results will be more trustworthy and more satisfactory in every respect. The evils and disadvantages of the present system will increase in rapid ratio as the country grows and the decennial burden its growth will impose upon the Census Office will become more crushing, and there will come a time when this system, yoked to the constantly increasing scope and number of schedules demanded, will break down of its own weight.

Let us trust, however, that Congress, recognizing the inadequacy of the present system, will soon enact a law which will be passed in rapid ratio as the country grows and the decennial burden its growth will impose upon the Census Office will become more crushing, and there will come a time when this system, yoked to the constantly increasing scope and number of schedules demanded, will break down of its own weight.

AMUSEMENTS.

AT THE PLAYHOUSES.

GRAND OPERAHOUSE—The people who went to Primrose and West at the Grand last night—and, by the way, the house was full of them from top to bottom—had actually a new sensation. They saw a minstrel company that was bright, clean, fresh and tidy in every detail: new songs, new jokes and witlessness, genuinely funny men who roll through the hours with clever sayings until the house shrieks with mirth, just as they did in the very palmiest days of negro minstrelsy. To see in this later day a company of minstrels in such a state of perfection is a delight, and is with darky dancing and fooling, is a delight, and the house enjoyed the sensation to the full. The olio was especially good, the only feature deserving adverse criticism being that the majority of the performers appear in white face. Were all the faces swaddled up with a good coat of black paint, we would have the background of puffed white skin, the scene would be far more striking and effective. But this incongruity did not serve to mar the melody of the singing, the dainty stepping of Primrose in the dance of the Englishmen, nor the delightful fooling of that prima donna, Mrs. Billie. Miss K. Kilpatrick in her drama man drill did some wonderful work, and Joseph Garland sang a song with a voice full of sweetness and expression. Achab and Masan are the cleverest tumblers and equilibrist ever seen here, and had a great reception. They were followed by a company of young, lithe girls, dancing and laboring with the pupillate until it shrieked, and yelled, and hid its sides; then called him back for more of the same. Jim, turn! is entirely new and exuberantly funny. Messrs. Primrose, Jason, Lewis and Randall did some old-time juba dancing that was one of the best things of the performance. Morris Cronin, in an original specialty with Indian clubs, did some marvelous feats; the great musical specialist, Dale, captured the audience with his playing on the Swiss hand-bells, banjo, concertina and a new steel-necked solo, which was taken to be the best of the bunch. The auctioneer remarked, drily, that nobody seemed to have any use for them. The electric clocks, important accessories of a prize-fight, that cost \$50 apiece, were sold for \$2. Boxing gloves with interesting histories went begging. A flag worn by Jim Corbett in his match with Jackson was given to the auctioneer, who had not been able to sell it. While he was about to hang it up, the crowd rushed forward and took it away, shouting, "Give it to us!"

ACT II.—Time: Monday evening, March 13, 1893. Boycott resolutions adopted by the Sacramento Board of Trade on the afternoon of March 12.

WHENAS, we fully recognize the right of journalists to conduct newspapers as in their judgment may be for the best interest of those owning the enterprise;

WHENAS, we, as the Board of Trade of the city of Sacramento, do hereby cancelly protest against the slanderous articles published by the Daily Bee against the Legislature of the State of California; and

WHENAS, we believe the members of the Board of Trade are fully up to the standard of past legislatures and should be treated with respect; and

WHENAS, we protest against the policy of the Daily Bee pursued now for many years; and

WHENAS, we fully realize it as high time for us to protect ourselves, our property and the fair name of our city; therefore

Resolved, that we hereby withdraw all our patronage from the Daily Bee.

ACT III.—Time: Tuesday, March 14, 1893. Notes ordering withdrawal of advertisements, in the order of their receipt:

OFFICE OF NATIONAL BANK OF D. O. MORSE.

SACRAMENTO (Cal.) March 14, 1893.

Mrs. McCleathy & Co.—GENTLEMEN:

Please discontinue our advertisement and paper. Yours,

FRANCIS MILLER, President.

OFFICE OF BAKER & HAMILTON.

SACRAMENTO (Cal.) March 15, 1893.

Sacramento Evening Bee, in compliance with the resolutions of the Board of Trade, we would respectfully ask you to discontinue our ad in your paper.

We remain yours truly,

CALIFORNIA STATE BANK,

A. A. Abbott, Cashier.

OFFICE OF BAKER & HAMILTON.

SACRAMENTO (Cal.) March 16, 1893.

Sacramento Evening Bee, in compliance with the resolutions of the Board of Trade, we would respectfully ask you to discontinue our ad in your paper.

We remain yours truly,

BAKER & HAMILTON,

Act IV.—Time: Thursday afternoon, March 16, 1893. The formal agreement circulated by S. E. Goringham and Sparrow as received at the Bee office.

SACRAMENTO (Cal.) March 14, 1893.

JAMES McCLEATHY & CO.—GENTLEMEN:

From this date you will please discontinue our advertisement in the Bee.

Yours truly,

CALIFORNIA STATE BANK,

A. A. Abbott, Cashier.

OFFICE OF BAKER & HAMILTON.

SACRAMENTO (Cal.) March 17, 1893.

Sacramento Evening Bee, in compliance with the resolutions of the Board of Trade, we would respectfully ask you to discontinue our ad in your paper.

We remain yours truly,

BAKER & HAMILTON,

BASEBALL.

The California League Season
Opens Today.

Los Angeles and Stockton at Ath-
letic Park This Afternoon.

An Imposing Street Procession a
Feature of the Show.

The Teams in Tally-ho to Parade the
Main Thoroughfares—The Final
Practice Game of the Angels
Yesterday.

This afternoon, promptly at 1 o'clock, the Los Angeles and Stockton will parade the principal streets of the city preparatory to opening the California League baseball season. The several magnates have determined that the season's work shall be marked by a more harmonious feeling than has been shown heretofore, and it is stated on good authority that the baseball moguls are on the best of terms with each other. Up in the northern end of the circuit Uncle Hank and the elongated Colonel will ride side by side through the crowded streets of the metropolis and try their best to look pleasant and happy, while Don Miguel Finn and the new Los Angeles magnate will endeavor to raise enough cash between them to ride in a carriage at the head of a procession of their respective swatters, who will assemble in battle array at Athletic Park promptly at 2:30.

It has been stated that both teams, and in fact, the entire league, is stronger than last season's clubs, and accordingly the "fans" are anxious to witness the games with Stockton, that they may judge for themselves. There were enthusiasticists who would be quite well pleased if the Angels of 1893 will but stick to the form of last season's team. It is confidently expected that good ball will be played, as the team's makers shows strength in every department of the game. Of course, patrons of the game must not expect too much of the new members of the Cherubs at the start, but reserve their opinions until later in the season, when the new men get their hands in. Finn, of course, claims the pennant. Both Finn and Robinson have run quite a race in past seasons, claiming pennants before a single scheduled game has been played, but the late Duke has had considerably the best of it; in fact, he had become quite an adept at winning pennants until Los Angeles appeared in sight and stopped the onslaught of championships. The California League will be the first professional baseball league to start the ball rolling, and the slumbering base-ball fans are now awakening and will watch the efforts of the several clubs composing the league in the mad race for supremacy.

The tall Colonel and his hired hands will cross the bay and try conclusions with Uncle Hank's heavyweights today in San Francisco, immediately after which it is surmised that some of the Colonel's talent will be out of a job in event of defeat, for the tall magnate has a very original idea about this baseball business. For the Angels Roach and Lohman will do baterry work, while Harper and Spear will be on the points for the representatives from the Swamp City. This will be the first opportunity to witness the work of the new members of the locals, and a good crowd will be the result. McDonald will be on hand to umpire, and the contest will be played under the newly revised playing rules. Game will be called promptly at 2:30 o'clock.

THE CHERUBS AT PRACTICE.

Yesterday afternoon was the first opportunity the local fans have had to see the new representatives of the Angel City together as a team, and some half a hundred of them gathered at Athletic Park to watch the men at practice.

The boys had arrived in the city in the morning, having been for several days sidetracked between here and San Diego, owing to the washouts. They are all in fine fettle and, judging by their work yesterday afternoon, will put up pennant-winning ball.

The make-up of the team has already been announced, and consists of all last year's favorites in their old positions, with the exception of four new men in the left field, shortstop, catcher and pitcher's box, whose positions are filled by Van Dyke, Shiebeck, Sheehan and Nicol respectively.

As was the case last year, the team is largely made up of left-handed men, and all the batters who face the pitcher today will strike in this manner except Van Dyke, Shiebeck and Nicol. The latter, although using his left for pitching, seems to prefer batting the other way. Glenalvin, the captain, is also ambidexterous, using the willow with either hand, as occasion seems to indicate.

Of the new men, Nicol is the one, perhaps, whose work will be most anxiously watched. He is a young, smooth-faced man, apparently about 28 years old, and uncorks a ball that will doubtless prove a puzzler to the Stocktons. He is very easy in the box, his style and appearance reminding one very forcibly of Knell. On the base lines he showed surprising speed, and will undoubtedly prove to be a daring and successful base runner.

Sheehan, the catcher, is almost a second Dandy Sweeney in appearance, and, like him, is very quick on his feet and by the way scoops and foul tips were taken in yesterday, will very quickly ingratiate himself into the good graces of the fans.

Shiebeck, the shortstop, has a hard job on hand to satisfy those who think that no one can play the short field like "Good boy Jiminy" Stafford. He is a rather spare young man, very quick on his feet, fielding the ball rapidly and covering lots of ground. He is also a heavy hitter and fast on the base lines. He will doubtless render a good account of himself in today's game.

The new left-fielder, Van Dyke, is a tall, thin personage with a heavy, drooping mustache, very much our "Tredy" who covered that position last year. He is very rapid in his work and line hits, flies, etc., were gobbed up by him in short order and in neat style.

The rest of the team little need be said; they are all favorites, and all are playing ball in a manner to satisfy the most critical taste. Glenalvin says as little as ever, but saws wood; Hulen is the same old "Kid." Roach is as statesmanlike as ever, and has his arm right with him; "Pap" Lytle and "Basty" Wright in the field, and "Pop" McCauley, "Old Pop," are, as they used to be, playing ball for all there is in it.

The team came on the grounds at about 2 o'clock, and for two hours some lively work was indulged in, including a sort of scrub game of one-old-cat, after which a spin of half a mile was taken around the track, when all took a bath, rub down, and went to supper.

Last evening the boys of both teams occupied boxes in the Los Angeles Theater, the guests of Manager Harry Wyatt.

Among the spectators yesterday

was Michael, former Duke of Santa Clara Valley, but more recently of Stockton, who watched the boys from the grandstand and commented very favorably on their work.

THAT VENUS.

Campaign of the W.C.T.U.—Pixley Pitches into the Stripping Match.

J. P. Hight of San Bernardino writes to Mrs. L. M. Hutton and Laura Thomas Carter, president and secretary of the W.C.T.U., approving and endorsing the resolution passed by the union condemning the California Venus proposition.

PIXLEY'S PUNGENCY.

Commenting on Mrs. White's scheme, the San Francisco Argonaut writes:

"A number of weeks ago, in referring to the silver statue which Montana proposes to send to the World's Fair, the Argonaut commented on the claim made by many artists that the noblest development yet seen of the female form divine is to be found in this State, and added that there were girls among us who might serve as models for a new Venus of Milo. In a spirit of light badinage, the Argonaut threw down the gauntlet to the other States to match our beauties if they could. What we suggested jocularly has been taken up seriously by the Examiner, and a number of young ladies are having themselves photographed 'in silk tights and cheese-cloth drapery' in order to make the world acquainted with the excellence of their proportions."

"This is going a little too far. No possible advantage, artistic or other, can be derived from such exhibitions, and they must inflict a shock on modesty and delicacy. In the South Seas Islands and in the realm of King Mombasa, in Africa, clothing is rare, and the exhibition of the female form *au naturel* excites no surprise and involves no sense of shame. In more civilized portions of the world such displays rob women of their chief charm—modesty.

"It is to be hoped that the names of the young ladies who write to the Examiner to say that they desire to be photographed undraped are fictitious. But if these young women really exist, we would strongly advise them not to enter this 'art competition,' in which their charms shall be seen of all men. Let them, on the other hand, keep the aforesaid charms very much to themselves, and when they marry they can dazzle their husbands with them. When it comes to admiration of a young woman's intimate charms, she had better confine herself to one man, and that man her husband."

"A most extraordinary idea prevails among the promoters of such 'competitions' as this, that by repeated comparisons of female forms, one will be found which can be taken as a type of perfect beauty. This is an error arising from imperfect acquaintance with the canons of art. No painter or sculptor can produce an ideal Venus from a single model. He must borrow from many, taking from each the feature in which she particularly excels. The story of the girls of Greece combining to supply Praxiteles with composite perfection in a model is probably one of those historical legends which we abandon with regret; but in artistic circles, a girl who undertakes to pose for the whole figure, as well as the face, would be clasped with a young woman who in reply to Mr. Jagger's question—'What could you tell?' replied:

"Most anything sir."

"Such statues as the Venus of Milo are not petrifications of specific women. The actual outline of each part—the head, the neck, the torso, the arms, the legs, the hands—was probably borrowed from some model in whom that part appeared to have been developed to perfection. When each part had been secured by itself, it developed upon the sculptor to bind them together into a harmonious whole, and to breathe into that whole the concrete idea of loveliness. Not one of the several models employed could find herself reproduced in the finished statue. All had been absorbed and idealized. A professional critic might, perhaps, detect a familiar curve or sine wave; no one else could. If ever an ideal statue of California is produced, it will have to be evolved out of the inner consciousness of some man of genius assisted by the study of a number of graceful female figures. Miss Sarah Jane of the Mission, who fancies that her plump curves are going to glisten in marble for the delectation of her friends, is quite mistaken. Her artistic education is incomplete."

"Even if California were to send a statue to Chicago which should be a type of feminine loveliness, it might not be the Chicago type. Chicago has already disapproved of our artists; she might disapprove of our art. Those fat-feminine freaks who abound in the Chicago streets may be the Chicago ideal. It is told of a Chicago lady (name of Raggles) that when in Italy she was very anxious to see the Apollo Belvedere. When at last Mrs. Raggles was shown that stony type of manly beauty, she gazed at it long and silently, and then, leveling a scornful umbrella at it, remarked: 'Well, I've seen the Apollo Belvedere, and I've seen Raggles, and I've seen Raggles.'

A professional critic might, perhaps, detect a familiar curve or sine wave; no one else could. If ever an ideal statue of California is produced, it will have to be evolved out of the inner consciousness of some man of genius assisted by the study of a number of graceful female figures. Miss Sarah Jane of the Mission, who fancies that her plump curves are going to glisten in marble for the delectation of her friends, is quite mistaken. Her artistic education is incomplete."

"Even if California were to send a statue to Chicago which should be a type of feminine loveliness, it might not be the Chicago type. Chicago has already disapproved of our artists; she might disapprove of our art. Those fat-feminine freaks who abound in the Chicago streets may be the Chicago ideal. It is told of a Chicago lady (name of Raggles) that when in Italy she was very anxious to see the Apollo Belvedere. When at last Mrs. Raggles was shown that stony type of manly beauty, she gazed at it long and silently, and then, leveling a scornful umbrella at it, remarked: 'Well, I've seen the Apollo Belvedere, and I've seen Raggles, and I've seen Raggles.'

"Such statues as the Venus of Milo are not petrifications of specific women. The actual outline of each part—the head, the neck, the torso, the arms, the legs, the hands—was probably borrowed from some model in whom that part appeared to have been developed to perfection. When each part had been secured by itself, it developed upon the sculptor to bind them together into a harmonious whole, and to breathe into that whole the concrete idea of loveliness. Not one of the several models employed could find herself reproduced in the finished statue. All had been absorbed and idealized. A professional critic might, perhaps, detect a familiar curve or sine wave; no one else could. If ever an ideal statue of California is produced, it will have to be evolved out of the inner consciousness of some man of genius assisted by the study of a number of graceful female figures. Miss Sarah Jane of the Mission, who fancies that her plump curves are going to glisten in marble for the delectation of her friends, is quite mistaken. Her artistic education is incomplete."

FRANCES WILLARD.

Britain's Welcome to the Tireless Temperance Crusader.

Lady Henry Somerset Describes a Remarkable Convocation of Zealous Tilers in the World's Field of Labor.

EASTNOR CASTLE, LONDON, Feb. 6, 1893.—(To the Editor of the Los Angeles Times.) DEAR SIR: Feeling assured that your patriotic desire to acquaint the readers of your paper with the success of their distinguished countrywoman in the land of her forefathers will make my letter welcome, I am sending you some account of the meetings held in honor of Miss Willard's visit to England, from which great good is resulting to our common cause. Believe me, yours sincerely.

ISABEL SOMERSET.

Great Britain's Welcome to Miss Willard.

BY LADY HENRY SOMERSET.

Remarkable as has been the power of our transatlantic friends to attract immense audiences and awaken British enthusiasm, none perhaps, John Gough and Dwight L. Moody not excepted, have evoked more universal interest or received a greater ovation than has Miss Frances E. Willard during her three months' stay in England. In this age of great conveniences, it is not often that a single meeting marks an epoch, even though it be in the interest of a reform that has now forged its way to the front in the politics of England's regnant party, and, *mirabilis dictu*, finds a place in the Queen's speech in Parliament. This is a statement noteworthy indeed, but it is true of the national welcome, for it was nothing less, accorded to America's white ribbon leader at the recent great meeting in Exeter Hall.

There is perhaps no better gauge of the state of public sentiment toward a cause or an individual than the attitude of an Exeter Hall audience. This famous auditorium has been so long the battle ground of all religious movements and reforms that to the accustomed eyes of its habitues the unprecedented character of that assembly was a marvel. Even in the city of London it is not difficult to rally the adherents of a single reform, but to convene fifty distinct lines of religious, philanthropic and reformatory work is something which, so far as I know, has never before occurred in the greatest metropolis of the world.

On the huge platform were seated men and women whose names are household words throughout the English-speaking race—members of Parliament, dignitaries of the church and ladies of society, side by side with the leaders of the labor movement and the Salvation Army. A delegation appointed from the Methodist Church, the Baptist, the Congregational, the Society of Friends and other canons of the Established Church and temperance leaders of the Catholic hierarchy, while the chief Jewish rabbi sent a congratulatory letter and signed the address of welcome, which was also attested by three hundred local unions of the British Women's Temperance Association.

Among the societies represented on the platform were: The World's Women's Christian Temperance Union, British Women's Temperance Association, United Kingdom Alliance, Young Abstainers' Union, Independent Order of Good Templars, Independent Order of the Rechabites, Anti-opium League,

Woman's Anti-opium Emergency League, Church of England Temperance Society, Total Abstaining Section of the Young Women's Christian Association, Young Men's Christian Association, Bands of Mercy, Salvation Army, International Christian Police Association, Church Army, West London Wesleyan Mission, Woman's Suffrage Society, Peasant Society, Vegetarian Society, the Rev. Armstrong Bennett, B.A., and six ministers, a deputation from the Wesleyan Church, Tower Hamlets Mission, Baptist Total Abstinence Society, Congregational Total Abstinence Society, Women's Liberal Federation, National Union of Women Workers, National Vigilance Society, Prison Gate Mission, Friends' Temperance Union, Presbyterian Temperance Union, Students' Total Abstinence Association, New Church Temperance Society, Catholic Total Abstinence League of the Cross, National Temperance Federation, Phoenix Orders, London Temperance Hospital Board, Railway Temperance Union, Templar and Temperance Orphanage Board, English Sunday Closing Association, East London Mission Institute, Working Women's Teetotal League, Bakers' Total Abstinence Society, General Post Office Total Abstinence Society, Women's Trades Union Association.

The speakers, twelve in number, were each one equal to filling Exeter Hall on the strength of individual reputation; but they gladly limited their speeches to five minutes each, rejoicing to be among those who did honor to the distinguished guest whom the crowd had assembled to greet in numbers so large that the tickets could have been sold twice over, and some fortunate possessors, more sordid than enthusiastic, were disposing of them at the entrance, where they were eagerly purchased, even for the overflow meeting, which had speedily to be organized, so great were the crowds demanding entrance.

Nothing could exceed the enthusiasm with which the speaker of the evening was greeted. The vast audience rose with a cheer on their lips and waving white handkerchiefs in their hands, and for several minutes the expression of their admiration seemed as though it would never subside. A thrill of pleasure comes to our hearts when one is thus recognized who has toiled so long and patiently for others' weal, for it is good, indeed, to pour out the fragrance of our welcome, affection and praise, and place our tribute in the warm clasp of living hands rather than lay it on the cold marble of a tomb.

After such a greeting as has been described, it was an easy task to organize a demonstration worthy to be compared with that of Exeter Hall; but the United Kingdom Alliance, the strongest temperance society in Great Britain, proved equal to the undertaking. Five thousand persons assembled on consecutive evenings in the great Free Trade Hall in Manchester, the second city in England, and the headquarters of the alliance, Canon Wilberforce and Sir Welfred Lawson were chairmen. Testimonials were presented by the alliance, and other temperance societies, and the entire audience rose to receive Miss Willard, a greeting which was perhaps excelled only by the enthusiasm which brought them to their feet again, and caused a hearty British cheer to echo through the historic hall that had witnessed the triumphs of Cobden, Bright and Gladstone, as she closed her speech. "A wonderful address," said a veteran leader who had gauged every speaker on the temperance platform for the last forty years; "I have never heard it excelled and perhaps not equaled."

Similar demonstrations have been held in Charrington's great hall, in the heart of the East End of London; in Liverpool, where Miss Willard was welcomed by the Women's Liberal Federation; in Birmingham and Leeds, Nottingham and Sunderland, and in St. James's Hall, London—by invitation of the indefatigable Rev. Hugh Price Hughes, on Temperance Sunday.

The Methodist churches of London, not to be outdone, have already given a social reception to the most prominent figure among Methodist women of America, and, on the 27th of February, they are to accord her a formal public greeting in John Wesley's famous City Road Chapel.

Scotland has added her quota to the universal enthusiasm, and indeed in the judgement of some of our temperance workers has exceeded, perhaps, in demonstrating a more expressive sympathy in harmony with their well-known national hospitality. The Andrew's Hall, Glasgow, which accommodates 5000 persons, was packed on the evening of January 29, and the great Synod Hall in Edinburgh witnessed the remarkable exhibition of the presentation of a testimonial by Dr. Blakie, of the university, signed by the official representatives of every denomination in Scotland, together with the testimonials of the national temperance societies.

A more notable instance of the result of Miss Willard's life mission could not be instanced than such a recognition from this most conservative body of Christians, who have for so long resisted the work and influence of women. It is, however, no matter of wonder that the work and worth of Frances Willard should have been thus recognized in the mother country; for wherever the temperance cause has a champion; whenever the cause of social purity has an exponent; wherever the labor movement lifts up its voice; wherever woman, with the sunlight of the glad new day upon her face, stretches forth her hands to God, there her name is loved, cherished and revered. Tried by a jury of her peers, even amid the clashing of opinions of this transition age, when the old is unwilling to die and the new seems hardly ready to be born, there would still come the verdict, "She is a fair opponent, she is a kindly comrade," as Lincoln said, she has firmness in the right as God gives her to see the right, and moves along her chosen path "with malice toward none and charity for all." From that month, and perhaps impartial jury, beyond the circle of reform, comes the verdict, prophetic of that which history shall one day record, "She made the world wider for woman and happier for humanity." We know that America owes her greatness to the sterling qualities of those intrepid Puritan pioneers, who were the first gift of the old world to the new. So Frances Willard, who has in her veins that pure New England blood, owes to her ancestry much of the strength and courage that must ever be the basis of a reformer's character. Away on a Wisconsin farm, amid the cedars, sweet and fragrant, and the whispering fields of Indian corn, she caught the inspiration of her life from the mother, whose strong and sunny spirit made glad the solitary place, and who brought into the prairie wilderness a most intrepid intellect and culture exceptionally rare. The brightness of her own great nature made that "desolate" place "blossom as the rose" for her children. On that country farm, Coleridge, Wordsworth and Pope were household friends. That enthusiasm for humanity which characterizes Frances Willard's work was breathed into her active mind by one born and bred in the great free-soil State of the

North, whose delight it was to teach her little girl to read from the "Slave's Friend." What wonder that in after years one of the greatest achievements of Frances Willard's life was her mission of reconciliation to the women of the South, while yet the scars of war throbbed in their breasts, and new-made graves stretched wide between sections that had learned the misery of hatred. It was the white ribbon taken by her tender hands that bound those wounds, and gently drew the noble-hearted women of that sunny land into the hospitable home circle of the W.C.T.U. Sacrifice is the foundation of all real success, and it was a crucial moment in Miss Willard's life when she resigned the brilliant position of dean of the first women's college connected with a university in America, and went out, penniless, alone, and unheralded, because her spirit had caught the rhythm of the women's footsteps as they bridged the distance between the home and the saloon in the Pentecostal days of the temperance crusade. She had relinquished that which women hold dear, the sacred, sheltered life of home. Around her hearth no children wait to greet her. But she has lost that life only to find it again ten thousandfold. She has understood the mystery of the wider circle of love and loyalty, and the world is her home as truly as John Wesley said it was his "parish." She has understood the divine motherhood that claims the orphaned hearts of humanity as her heritage, and a chorus of children's voices round the world cherish and hail her name, for "organized mother love" is the best definition of the W.C.T.U. Well may we say in the words of our great poet:

"Live and take comfort, thou wilt leave behind."

Power that shall work for thee,

Earth, air and skies

That's not a breathing of the common wind.

That will forget thee, thou

Hast great allies.

Thy friends are exaltations, agonies and love

And man's unconquerable mind."

ISABEL SOMERSET.

A Neat Souvenir. The souvenir pamphlet of the Chamber of Commerce banquet is out, and a fitting souvenir it is of the evening's entertainment. A fine cut of the Rendondo Hotel, where the banquet occurred, forms the frontispiece and the cover is printed in illuminated type. The pamphlet contains the speeches, letters of regret, menu, seatings at table, fac simile autographs of those present, committees and proceedings, all of which cover about sixty pages. It is issued by the Banquet Committee, and copies will be sent to all who were present or who sent letters of regret. The edition is limited to 500 copies.

LOS ANGELES, Va. Stockton, Saturday and Sunday, March 25 and 26.

NOTHING LIKE S.S.S.

SWEET'S SPECIFIC is totally unlike any other blood medicine. It cures diseases of the blood and skin by removing the poison, and at the same time supplies good blood to the parts. Don't suppose that a appetite and enjoyment of life. Two bottles of S.S.S. better remedy for blood diseases.

SOUTHERN CALIFORNIA.

PASADENA.

The G.A.R. Veterans are Given a Cordial Welcome.

Maj. Drimil Looks into the Affairs of Co. B—The Baseball Cranks are Happy—Personal Notes and Items of Interest.

The members of the State Encampment G.A.R., accompanied by their wives, sweethearts and friends, swooped down on Pasadena Friday morning in numbers that threatened for a time to overwhelm the local committee. Shortly after 9 o'clock a special train of seven coaches loaded to the brim steamed into the Santa Fe station, and some twenty minutes later a second section of six cars, likewise well filled, made its appearance. Arrangements had been in the matter of carriages for about three hundred guests, fully which number came in on the first section. The zouave uniforms of the veterans, Kept in camp 5 of V., played some lively and jolly air, the visitors alighted from the cars. The carriages were soon filled and took their departure without unnecessary delay to cover the route as mapped out by the committee, and which appeared in these columns yesterday. A committee meanwhile, had instigated a hasty search for the persons of each member, by the time the second section had arrived, sufficient conveyances were in waiting to accommodate a large proportion of the visitors. The route of the drive included the best portions of the city and Raymond Hill and the surrounding country, and over the beauties of the place and the progress everywhere noticeable. Upon their return to the station they were treated to lemonade prior to boarding the cars for a trip over the Kite-shaped track, on which they were accompanied by a number of Pasadena citizens. Mrs. Showalter, Mrs. Quincy and Mrs. Follett of the W.R.C., and comrades Downing and Williams met the visitors prior to their arrival in Pasadena and presented each with a handsome white silk badge, which will constitute a pretty souvenir of the occasion. The visitors remained in Pasadena about two hours.

CO. B'S ANNUAL INSPECTION.

Army Hall, in the Morgan Block, was well filled Thursday evening with an assembly of ladies and gentlemen on the occasion of the annual inspection of Co. B. G.A.R. The inspection was conducted by Maj. Drimil of Los Angeles. The company turned out forty-six men, under the command of Capt. Bangham. The inspection was thorough and evidently proved altogether satisfactory to Maj. Drimil. Medals were awarded to the following members of the company: Capt. N. S. Bangham, Lieut. V. R. Sutliff, Sergt. F. J. Coleman, Sergt. A. B. Case, Sergt. A. W. Berry, Sergt. C. H. Cole, Privates Billheimer, Cee, Heise, Morton, Martin, Root and Shannon. Following the military exercises came an hour of socializing at intervals, the Union is present, a letter dropped in the box at the door will receive due attention.

THE EMPLOYMENT DEPARTMENT OF THE FAITHFUL GOSPEL UNION IS AN IMPORTANT FEATURE OF THE WORK OF THIS ORGANIZATION IN PASADENA. A NUMBER OF WORTHY APPLICANTS HAVE BEEN ASSISTED IN GETTING WORK AND THE PUBLIC IS ASKED TO LEAVE WORD AT THE HALL ON NORTH FAIR OAK AVENUE, WHICH IS KEPT OPEN AND WARM EVERY DAY AND EVENING, FOR THE RECEIPT OF APPLICANTS AND FOR THE MARY LINES OF LABOR. IN CASE NO MEMBER OF THE UNION IS PRESENT, A LETTER DROPPED IN THE BOX AT THE DOOR WILL RECEIVE DUE ATTENTION.

Since its organization the Union has given night's lodgings to about two thousand men and boys, and saved a great many seeds, given nearly eight meals to the hungry, and 170 requests for prayer have been received in the last thirty-five days. Since January 3 twenty-six have professed conversion. Those having men's or boys' clothing to spare will bestow a favor if they will leave it at the hall.

NORTH PASADENA DRAMATISTS.

An entertainment was given Friday evening at Gilson's Hall, North Pasadena, by the North Pasadena Dramatic Club, to the benefit of the Orphan Fund of the Washington school piano fund. Several musical numbers were rendered, and the two-act temperance drama, *The Last Leaf*, was given with the following cast:

Mark Ashton.....O. W. Kyle	Lulu G. Brown.....Lulu G. Brown
Harry Hanson.....Will Seaman	Bert Doane.....Bert Doane
Dick Bustle.....Bert Doane	Will Schneider.....Will Schneider
Kate.....Mrs. A. C. Cope	Lilly Ashton.....Alice Lusk
Patty Jones.....Patty Jones	Lena Seaman.....Lena Seaman

THE FANS WILL ALL BE THERE.

Promptly at noon today a crowd of Pasadena's most pronounced fans will leave the Morgan stable in the Morgan coach, bound for the opening ball game in Los Angeles. Manager Lindley, who will this season control the affairs of the Los Angeles club, has made arrangements with his co-operators to have him remembered among the most generous of his patrons during the season. A notable fact is that so much faith is here manifested in the personnel of the team he has chosen that it is looked upon as a sure pennant winner.

PASADENA BREWERTIES.

The town was thronged with visitors yesterday.

Friday's overland arrived nine hours behind time.

The weather was on its good behavior yesterday.

W. C. Daffy was out from Los Angeles yesterday.

Nearly all the snow has disappeared from the mountain tops.

THE PAGEANT OF THE BOIES REHEARSALS ARE PROGRESSING SATISFACTORILY.

A very enjoyable card party was given at Hotel Green Friday evening.

L. C. Winston left Friday morning on a business trip to New Orleans.

The Marlborough school girls arrived home Friday for their Easter vacation.

Some magnificient oranges grown in Pasadena are displayed in the office window of Prosser & Shields.

A party of Pasadenaans attended the production of *Samson's Creation* in Los Angeles yesterday evening.

THE WEST-BOUND OVERLANDS CONTINUE TO ARRIVE CARRYING LARGE NUMBERS OF PASSENGERS BOUGHT FOR THIS SECTION.

THROOP UNIVERSITY CLOSED YESTERDAY EVENING FOR A WEEK'S VACATION, WHICH WILL BE ALIKE ACCEPTABLE TO SCHOLARS AND TEACHERS.

SPECIAL RHETORICAL AND MUSICAL EXERCISES WERE HELD YESTERDAY AFTERNOON AT THROOP UNIVERSITY, MARKING THE CLOSE OF THE SECOND TERM.

Some of the Pasadena delegates to the Universalist State Convention will leave today for Santa Paula. Others will follow on Monday.

Ground has been broken for the new house which Rev. Mr. Staats will erect on the corner of Worcester avenue and Colorado street.

ONE OF A SERIES OF BI-WEEKLY WOPS WAS GIVEN AT MORGAN HALL YESTERDAY EVENING, AND WAS ENJOYED BY A NUMBER OF OUR SOCIETY PEOPPLE.

Mr. Ball is the latest cyclist in town. He is practising in the moonlight and has already acquired a complete mastery of the machine.

The principal attractions in the way of entertainments booked for next week are

the Estrelia guitar and banjo concert at the opera house, on Monday night, and the Fomona College Glee Club concert at the First Congregational Church, Tuesday night.

SPECIAL CHURCH SERVICES WILL BE HELD AT THE FIRST PRESBYTERIAN CHURCH ON EASTER SUNDAY AT 3 IN THE AFTERNOON. MUSIC APPROPRIATE TO THE OCCASION WILL BE RENDERED.

CAPT. CAMPBELL LECTURED ON HAWAII AT THE OPERA HOUSE YESTERDAY, BEFORE A LARGE AND APPRECIATIVE AUDIENCE. THE LECTURE WAS ILLUSTRATED WITH NUMEROUS VIEWS, WHICH ADDED MUCH TO THE PLEASURE OF THE EVENING.

FRIDAY'S ARRIVALS AT HOTEL GREEN INCLUDE G. W. ARBUCKLE, JAMES H. GARRETT, G. W. HUNTINGTON, SAN FRANCISCO; E. G. NEVINS, SAN JOSE; J. SUNDERLAND, E. S. SLATER, T. E. FAY, E. H. SMITH, M. D. SHAW, WIFE, AND SON, GENEVA, NEW YORK; C. H. RAILL, ST. PAUL; F. B. G. OGDENSBURG; C. N. WALDRON, CHARLES F. WALDRON, DETROIT; E. C. HARRINGTON, SAN FRANCISCO.

TONIGHT FRANK DANIELS AND HIS JOLLY COMPANY WILL APPEAR AT THE OPERAHOUSE IN THAT FUNNIEST OF FARCE-COMEDIES, *DR. CUPID*. MR. DANIELS IS A WHOLE SHOW IN HIMSELF, AND HE COMES AS USUAL, SUPPORTED BY A COMPANY OF ACTRESSES WHO STAR IN HIS DRAMA OR HIS PERSONAL LINE. AS HAS BEEN PREDICTED, THE ADVANCE SALE OF SEATS HAS BEEN UNUSUALLY LARGE, AND THE PERFORMANCE WILL CERTAINLY ATTRACT ONE OF THE LARGEST AUDIENCES OF THE SEASON.

DAVID KNAPP DIED AT HIS RESIDENCE ON MARSHAVILLE AVENUE, FRIDAY MORNING AT 7 O'CLOCK, AFTER A LENGTHY ILLNESS. HE WAS A FORMER RESIDENT OF DETROIT AND CAME TO PASADENA ABOUT A YEAR AGO IN THE HOPE OF BENEFITING HIS HEALTH, BUT HE WAS PAST RECOVERY AND GRADUALLY GREW WORSE UNTIL THE END CAME. HE WAS 65 YEARS OF AGE, AND WAS MUCH RESPECTED BY THOSE WHO KNEW HIM. THE FUNERAL SERVICES WILL BE HELD TODAY, PRIVATELY.

THE BEAUTIFUL AND PICNICABLE AIRS ALONG THE ROUTE OF PROV. LOWE'S MOUNTAIN RAILWAY WILL FORM THE SUBJECT OF PROF. WHARTON JAMES'S LECTURE AT THE RAYMOND HOTEL NEXT MONDAY EVENING AND ALSO AT HOTEL GREEN ON TUESDAY EVENING. THE SCENES RECENTLY PHOTOGRAPHED BY W. E. COOPER, OF THE MOUNTAIN RAILWAY, ARE WITH RESTAURANT EFFECT. COMPENSATION TICKETS OF ADMITION CAN BE OBTAINED AT THE OFFICE OF THE PASADENA AND MT. WILSON RAILROAD COMPANY, OPERAHOUSE BLOCK.

"THE WHITE TEA" GIVEN AT THE FIRST CONGREGATIONAL CHURCH THURSDAY EVENING, WAS LIBERALLY PATRONIZED. ALL PRESENT HAD A GOOD TIME, AND, BEING A SUCCESS, WILL BE REPEATED.

ONE OF THE SUCCESSFUL LUMBER MERCHANTS OF THE EMPIRE STATE, H. W. SAGE, OF ITHACA, N.Y., ALSO A MAN OF LARGE-HANDED CHARITIES, HAS BEEN AWARDED THE MEDAL OF HONOR BY THE HOTEL DEL CORONADO. SHE IS THE HOTEL DEL CORONADO'S GUEST.

MRS. G. A. SPRINGER AND MISTRESS HELEN AND GERTRUDE SPRINGER OF CHICAGO ARRIVED IN THE WEEK AND ARE DOMICILED AT THE CORONADO.

CORPORAL KIRKMAN, OF THE UNITED STATES ARMY, IS STOPPING AT THE GREAT HOTEL.

HON. H. E. BUTLER, A LEADING BANKER OF DETROIT AND EX-Secretary OF THE TREASURY, IS AT THE CORONADO.

ONE OF THE LUMBER MERCHANTS OF THE HOTEL DEL CORONADO, H. W. SAGE, OF ITHACA, N.Y., IS EXTENDING COURTESY TO MR. BROWN.

HERBERT INGLS, ONE OF THE LITERARY LIGHTS OF BOSTON, ARRIVED AT THE HOTEL DEL CORONADO, WHERE HE IS STAYING FOR A FEW DAYS.

MR. KIRKMAN IS A WRITER OF THE SAME ABILITY AS MR. INGLS.

D. P. KIMBALL OF BOSTON, UNCLE OF DAVID K. HORTON, WHO WINTERS AT THE CORONADO, HAD ARRIVED AT THIS RESORT WITH HIS WIFE AND DAUGHTER FOR A FEW DAYS.

MR. HORTON IS AN OWNER OF THE CHICAGO AND NORTHWESTERN RAILROAD AND STATE DIRECTOR OF THE FLITCHBURG ROAD, besides having a hand in the management of many important Boston affairs.

DAVID WOLF, BISHOP AND SON, D. W. BISHOP, JR., OF NEW YORK, ARE AT THE HOTEL DEL CORONADO, THE UNFORTUNATE STAY THAT THEY MADE HERE LAST SUMMER.

MRS. W. P. CALLAHAN AND DAUGHTER,

CHARLOTTE AND PRISCILLA, OF THE HOTEL CORONADO, TO PASS SOME TIME IN THE SOCIETY LIFE AND

TO SECURE A POSITION.

THE VENUS CONTEST, DENOUNCED BY THE W.C.T.U.—PERSONALS AND GENERALS.

MRS. FROST, "YOU-KNOW," WAIT AND THE LOCAL W.C.T.U. WILL NOW HAVE THEIR LITTLE TURN AT ONE ANOTHER—AT LEAST, THE W.C.T.U. HAS TAKEN IT TURN AT HER.

THE ORDER AT THIS POINT IS NOT BACKWARD IN TAKING HOLD OF ANYTHING WHICH IT CONSIDERS TO THE DILEMMA OF POMONA. ACCORDINGLY A SPECIAL MEETING WAS HELD MARCH 23, AND THE FOLLOWING COMMUNICATION WAS UNANIMOUSLY INDORSED, AND THE PRESIDENT HANDLED IT IN FOR PUBLICATION IN THE TIMES. THE LETTER IS AS FOLLOWS:

"THE ATTENTION OF THE POMONA W.C.T.U. HAS BEEN CALLED TO THE ADVERTISEMENT OF MR. E. WALTERS, OF NEW YORK, IN THE LOCAL NEWSPAPER, WHICH STATES THAT THE POMONA W.C.T.U. IS PROTESTING AGAINST THE IMPOSITION OF THE STATE TAX ON THE PROPERTY OF THE SORRENTO AND DEL MAR IS GIVING SERIOUS TROUBLE."

"UP TO WEDNESDAY NIGHT RAILROADS FALLING AT INTERVALS, THE UNION IS PRESENT, A LETTER DROPPED IN THE BOX AT THE DOOR WILL RECEIVE DUE ATTENTION."

THE PRACTICAL CHRISTIANITY.

THE EMPLOYMENT DEPARTMENT OF THE FAITHFUL GOSPEL UNION IS AN IMPORTANT FEATURE OF THE WORK OF THIS ORGANIZATION IN PASADENA. A NUMBER OF WORTHY APPLICANTS HAVE BEEN ASSISTED IN GETTING WORK AND THE PUBLIC IS ASKED TO LEAVE WORD AT THE HALL ON NORTH FAIR OAK AVENUE, WHICH IS KEPT OPEN AND WARM EVERY DAY AND EVENING, FOR THE RECEIPT OF APPLICANTS AND FOR THE MARY LINES OF LABOR. IN CASE NO MEMBER OF THE UNION IS PRESENT, A LETTER DROPPED IN THE BOX AT THE DOOR WILL RECEIVE DUE ATTENTION.

THE RAGING SAN DIEGO RIVER—GENERAL NEWS NOTES AND PERSONAL ITEMS.

THE SAN DIEGO RIVER IS RAGING, AND IS HIGHER THAN AT ANY TIME DURING THE PAST FIVE YEARS. APPROXIMATELY THE FORD ON BOTH SIDES IS WASHED AWAY AND THE VALLEY ROAD TO OLD TOWN IS SWEEPED BY ITS FLOODS. THE TIA JUANA RIVER HAS BEEN RISING CONSTANTLY SINCE TUESDAY MORNING, AND STOCK ON LOW LANDS HAS BEEN DRIVEN TO HIGHER GROUND, AND HOUSEHOLD GOODS ARE PREPARED FOR REMOVAL. CONSIDERABLE ANXIETY IS FElt BY SETTLERS LET A VISITATION SIMILAR TO THAT OF TWO YEARS AGO MAY FOLLOW. WASHBOUTS ARE TURNED OUT BY SIX MEN, UNDER THE COMMAND OF CAPT. BANGHAM. THE INSPECTION WAS THOROUGH AND EVIDENTLY PROVED ALTOGETHER SATISFACTORY TO MAJ. DRIMIL. MEDALS WERE AWARDED TO THE FOLLOWING MEMBERS OF THE COMPANY: CAPT. N. S. BANGHAM, LIEUT. V. R. SUTLIFF, SERGT. F. J. COLEMAN, SERGT. A. B. CASE, SERGT. A. W. BERRY, SERGT. C. H. COLE, PRIVATES BILLHEIMER, COE, HEISE, MORTON, MARTIN, ROOT AND SHANNON. FOLLOWING THE MILITARY EXERCISES CAME AN HOUR OF SOCIALIZING AT INTERVALS, THE UNION IS PRESENT, A LETTER DROPPED IN THE BOX AT THE DOOR WILL RECEIVE DUE ATTENTION.

The mammoth wharf at Santa Monica is now out over four thousand feet and still building seaward, and must be seen to be appreciated. The view of it is superb. The fishery very fine. Southern Pacific trains run through. Last train leaves end of wharf at 2:30 p.m. Round trip 50 cents.

Universalists, attention. There will be Universalist services, conducted by Rev. Edgar Leavitt, Sunday morning at 11 o'clock and Sunday evening at 7:30, at Y.M.C. Hall, No. 115½ North Main street. Universalists and the general public invited to attend.

Ministers and all persons whose occupation disarranges the lower bowels in their proper functions should use Bellan's La Griffe Specific. It is good for other things besides la griffe.

A good speaker, good music, and a good meeting will be the attraction for young men at the Young Men's Christian Association on Broadway, tomorrow afternoon.

Monster ostrich at the farm adjoining the Atchison Pacific's depot at Santa Monica. Southern Pacific round trip Saturdays and Sundays, 50 cents.

On Sunday March 26, the laying of the cornerstone of the Episcopal Church, Glendale, will take place at 3:30 p.m. A cordial invitation is extended to all.

Floor space, suitable for light machinery, where power may be introduced, for rent on third floor of Times Building. Also first-class offices on same floor.

Now in the trust. Wall paper from 4 cents up. The Francisco Wall Paper and Paint Company's branch store, 309 South Spring street.

No washouts on the Southern Pacific. One fare for the round trip to all points in Southern California every Sunday on its lines.

First Baptist Church, preaching morning, the pastor; evening, stereopticon views from life of Christ. Sunday-school, 9:30.

All young men are invited to attend the meeting at the Young Men's Christian Association, 3 p.m. Saturday.

For ladies, Mrs. Dunkin will sell choice jellies, jams and canned fruits at less than cost. No. 218 Spring.

H. B. Silliman of Cohoes, N. Y., will speak at the Y.M.C.A., No. 209 South Broadway, tomorrow afternoon.

Mantles, office fittings, hardware, lumber, H. Bohrman, 514 South Spring.

If you want an orange farm or land, see ad. of W. P. McIntosh in another column.

Let K. & K., the Broadway tailors, make you a spring suit. 214 South Broadway.

James Mean's \$3 shoes; sole agents, Boston Shoe Store, corner Main and Second.

Bettom's Pie Salve is a sure cure for piles in all its forms. 50¢, at all druggists.

Curios from Mexico, Japan and California, at Kan Koo. See ad.

Opals, Indian, Mexican goods. "The Unique," the kid-glove house.

The wheelmen will have a run to Burbank and return tomorrow.

The annual report of the County Auditor for the year 1892 has just been completed, and is now ready for distribution.

There are undelivered telegrams at the Western Union telephone office for Ben Rollerson, Mamie Newman, W. H. Taylor, David C. and C. C. Moore.

There will be a social entertainment given at the Y.M.C.A. this evening, to which all young men are invited. The Mephisto Banjo, Guitar and Mandolin Club will be in attendance, and there will be a recitation by Prof. S. A. Moody and singing by Fred May, besides a tuba solo by F. H. Cuthbert.

The boot which has received the signature of the coachman, attendant at the encampment, was contained in a box sent to a count made yesterday, 408 names. In glancing over the column containing the names of States from which those registered enlisted, the names of California, Massachusetts and Illinois are rather more prominent, while Pennsylvania, New York, Michigan and others appear frequently.

The new library board of the newly-appointed library board at the room of the Public Library this morning. The members of the old board are G. A. Robinson, Mrs. C. M. Severance, Frank H. Howard, Col. George H. Smith and J. Mills Davies. For members of the new board, Mr. Dobson and Mr. Howard have been re-appointed, while the others are to be Sheldon Horden, W. A. Spaulding and W. H. Hamilton.

Articles of incorporation were filed yesterday by Charles Wright & Co. of California, formed for the purpose of manufacturing and selling pharmaceutical goods, wares and merchandise and exclusively selling such proprietary articles as are manufactured by Charles Wright & Co. of Detroit, Mich., etc., with a capital stock of \$30,000 of which \$12,600 has been actually subscribed. The board of directors consists of Charles Wright of Detroit, Mich.; J. M. Wellwood, H. V. Carter, J. J. Butler and W. H. Butler, all of this city.

The electric line has been extended transversing with the blue line of horse cars at Washington and Estrella streets, the horse cars connecting at that point, and will give much more rapid transit to the people living out on the Washington street line. All passengers wishing to get to the depot from this line will be given transfers on transfers as far as San Bernardino on one fare. This is an improvement that will be much appreciated. This is the first step toward actual consolidation with the cable property, and the next will probably be electrifying of the cable lines as well as horse car lines. By the new arrangement in effect today eighteen men and a number of horses on the old blue line are dispensed with.

PERSONALS.

Henry A. Strong and wife of Sandusky, Ohio, are in the city.

Charles Broas and family of Lansing, Mich., are at the Nadeau.

Mr. and Mrs. E. Lawrence of Denver, Colo., are stopping at the Hollenbeck.

C. W. Farrar and wife of Erie, Pa., and R. H. Herran and family of Pittsburgh, Pa., are stopping at the Westminster.

Mr. and Mrs. R. P. Patterson, Mr. and Mrs. W. E. Hubbard and Mrs. Martha Simpson, all of Cincinnati, Pa., are registered at the Hollenbeck.

Billy Llewellyn has just returned from a business trip through Arizona. Mr. Llewellyn saw Contractor Dougherty, who was shot by a saloon-keeper at Gila Bend, some days ago, and says he is convalescing nicely and will soon visit Los Angeles. The soldier-kidney, who was shot by Dougherty, was not badly hurt, and is now entirely recovered.

N. H. Murray is one of the Sacramento veterans who were present at the G.A.R. encampment. He was formerly a Los Angeles man and well remembers when the purchase of lots as far south as Second Street was looked upon as a hazardous venture, the country considered unsafe away from the business part of the city, which then centered near Temple street. He speaks in very favorable terms of the growth and prosperity of the city.

RAILROAD AFFAIRS.

President Reinhart Makes Some Announcements.

The Santa Fe Management is Still Undergoing Changes.

Extension of the Pecos Valley Road in New Mexico.

Other Changes Expected at the Chicago End of the Santa Fe—A Successfully Managed Excursion—Sparks and Cinders.

A circular from President J. W. Reinhart of the Santa Fé system, dated March 21, says that J. D. Springer, having resigned as third vice-president of this company and its auxiliaries, in effect March 21, inst., to enter service of another company, the office of third vice-president will not at present be filled. After March 31, inst., all business connected with traffic affairs of the companies, theretofore reported to and transacted through the third vice-president, should be conducted directly, as to freight traffic, with J. A. Hanley, freight traffic manager, and passenger traffic with W. F. White, passenger traffic manager. Matters concerning the law department, theretofore reported to and transacted through the third vice-president, should be conducted directly, as to freight traffic, with J. A. Hanley, freight traffic manager, and passenger traffic with W. F. White, passenger traffic manager.

right leg was caught under the wheel and crushed to a jelly. The entire train passing over him before it could be stopped. The patrol wagon was sent for, and the station agent, assisted by a few bystanders, made the patient as comfortable as possible until further aid arrived. The injured man was conscious during the entire time, and howled with pain, while his brother, who had now sobered up, was also loud in his lamentations. The train, at the time, was in charge of a temporary conductor, with the newsboy acting as brakeman, the regular crew having left at Garvanza to board an eastbound train.

GOING TO CORONADO? The railroad to San Diego is again in good condition, and trains are running on time. All desirous of visiting the "Hotel del Coronado" can rely upon securing rooms to suit them, there being nearly 200 vacant rooms to select from at reasonable rates. For pamphlets, rates, etc., call on T. D. Yeomans, agent, 129 N. Spring-st.

ONLY SIX DAYS

Remain of the \$5.00 a Month Rate

For Catarrh and All Diseases Arising Therefrom.

Those Wishing to Avail Themselves of This Remarkably Low Rate Must Do So Before April 1.

Catarrh, and all disease arising therefrom, treated both locally and constitutionally at the rate of \$5.00 per month, and all medicines furnished free until cured.

CATARH OF THE STOMACH

Complicated With Inter-Costal Neuralgia and Accompanied With Violent Heart Symptoms.

For several years I have been troubled with catarrh, which I suffered by cold drafts running through my store, upon cold days, and which I suffered by severe fits of hunger and intense desire to eat. My nose kept on changing and darting pains along my spine, and my left side seemed to be paralyzed, as if it were cut and numbed. My left arm and left foot would not move, and pain me so much that they were scarcely of any use to me. I was rapidly losing flesh and growing weaker every day.

At a meeting of the Santa Fe Board of Trade today, it was voted to name the narrow gauge system up the Chama River from Espanola and across San Juan county to Durango, and reaching out from Santa Fé via Cerrillos and San Pedro, for a connection with the Pecos Valley road, at or near Bernal Springs, which is sixty miles north, has seemed to change the face of the railroad situation in that Territory materially. Evidently one reason in adopting this route was the mounting out of the long-projected Denver and El Paso road, the coming of which Santa Fé had reason to fear.

At a meeting of the Santa Fe Board of Trade today, it was voted to name the narrow gauge system up the Chama River from Espanola and across San Juan county to Durango, and reaching out from Santa Fé via Cerrillos and San Pedro, for a connection with the Pecos Valley road, at or near Bernal Springs, which is sixty miles north, has seemed to change the face of the railroad situation in that Territory materially. Evidently one reason in adopting this route was the mounting out of the long-projected Denver and El Paso road, the coming of which Santa Fé had reason to fear.

This has led the Las Vegas Optic to say: "Several comments can be made on this somewhat remarkable telegram. One is the persistency with which some parties at the Santa Fé have been endeavoring to make the impression that the Pecos Valley road does not come to Las Vegas, but the junction is formed at place thirty miles distant from this city, whence Las Vegas can be reached by the Atchison. Everybody knows, or should know, that the Pecos Valley road will come into Las Vegas, but that the present arrangement is for the Atchison track to be used for about fifteen miles, probably less, from this city to a point east of Bernal station, the latter point itself being at the outside, nineteen miles and not thirty."

SCRAP HEAP.

H. E. Huntington and other Southern Pacific officials, in their private car, went around the Santa Fe's Kite-shaped track.

Considering the great crowd and other circumstances, it is strange that no one was hurt on the Santa Fe's excursion yesterday.

Ticket Agent Magee accompanied the excursion to San Bernardino yesterday, and Passenger Agent Fischer went all around.

LOST A LEG.

Mexican who gave his name as Sheep-herder Run Over by Santa Fe Train.

A Mexican who gave his name as Manuel Garcia and claiming to be a resident of San Luis Obispo, had his right leg cut off below the knee by an incoming Santa Fe train at the Downey avenue station yesterday afternoon. The unfortunate man was accompanied by his brother, both being on the way from San Bernardino to Los Angeles, and both were considerably under the influence of liquor. They waited until the train was pulling out from the station, when the older brother alighted safely and pulled the younger one, who was the more intoxicated, after him. Manuel lost his footing and his

right leg.

Under the care of the first physician with whom I placed myself, I grew no better. My wife became alarmed and I discouraged.

I called on Dr. De Monaco and associates to make one more effort. I called on these physicians at their offices and placed myself under their care. I began the use of various kinds of patent medicine, but found nothing that would do. I was told to drink beer, which I did, and it did me good.

After a week I was able to walk again.

Upon reading the many recommendations of treatment, I decided to make one more effort. I called on these physicians at their offices and placed myself under their care. I began the use of various kinds of patent medicine, but found nothing that would do. I was told to drink beer, which I did, and it did me good.

TWELFTH YEAR.

LOS ANGELES, SATURDAY, MARCH 25, 1893.—TWELVE PAGES.

"Education is an ornament in prosperity, a refuge in adversity."

THE COST OF AN EDUCATION!

THE PARENTS' DISCUSSION.

HUSBAND—"My dear, our boy Robert graduates from the public schools very soon, you know. Have you thought what he had best do then?"

WIFE—"Well, John, I'd like ever so much to send him to college if you think we could afford it."

HUSBAND—"I'm afraid that is out of the question, my dear. Do you know that it would cost us at the very least \$800 a year for him at any good college?"

WIFE—"Goodness! as much as that? Of course we can't send him. But I do want to give him a good start in the world, and I don't think a public school education is enough to equip him for the battle of life!"

HUSBAND—"No, it is not today, when education is so general. Now, I've been set thinking by an advertisement I saw in THE TIMES the other day, and that is why I brought up the subject tonight. The great trouble is, I think, that most people stumble into business, are thrown into it by accident or temporary necessity, or are drawn into it by misguided ambition or perverted fancy, without any serious thought as to their real fitness for it. When the years for learning the theory and practice of their trade or profession are passed they often awaken with regret and dismay to the fact that they have not only made a mistake in their selection, but have wasted the precious years of early manhood upon a wrong pursuit."

"Now, the chief thing for our boy's success in life is not education as much as proper education—that is, education along the line of his natural bent. It's a year or two before he graduates. I'm going to give him an opportunity of doing a little study at home during this time. I was looking at the TIMES edition of the Encyclopedia Britannica, today, and it's really a great thing. With these valuable books in the house, Robert will have information upon every possible subject at his hand, and it is the most reliable information in the world. Whatever his natural bent is, he can find proper development for it in this Encyclopedia, whether it's the law, mechanics, engineering, literature or any of the arts and sciences. I think when he is ready to graduate we will have made up our minds what he is best fitted for by his use of these books. Besides, there he will find the life stories of all the great men of the past, and he will know of their efforts, their struggles and their successes, and he may have a better and more serious view of life. These books have in them all the instruction he can get in a college education. Honestly, the TIMES has given us a great opportunity. Now, my dear, what do you think of my scheme?"

WIFE—"It's just splendid, John; but what will the books cost?"

HUSBAND—"Why, that is the most surprising part of it. We can get them for only ten cents a day; just think of it!"

For Only \$1.00

The TIMES will send you a sample volume, charges prepaid. The remaining 24 volumes you can obtain by the payment of 10 cents a day, payable monthly, and a dime savings bank is presented free to each subscriber; or you can secure the entire 25 volumes at once on payment of \$5 down and \$5 per month. To those accepting this offer the entire 25 volumes are secured at a cost of \$1.95 per volume, which is less than one-fourth the cost of the original work.

THE COURTS.

The Second Trial of the Ewing Divorce Suit.

Cruelty the Grounds on Which Husband Bases His Action.

A Decree Granted a Year Ago, but Afterward Revoked.

An Important Water Suit Commenced Before Judge Shaw.—The Waters of the Little Santa Anita Creek in Dispute.—Notes.

In Department Four yesterday the case of Robert S. Ewing vs. Emma A. Ewing, an action for divorce, came up for trial before Judge Van Dyke, the plaintiff being represented by Horace Bell, Esq., and Messrs. Gould and Stanford appearing for the defendant.

A large number of well-dressed women were in attendance, all of whom evinced a deep interest in the proceedings. The plaintiff, a tall, well-built man, occupied a seat behind his counsel, his children, two remarkably pretty little fair-haired girls, aged 7 and 9 respectively, sitting on either side of him. The defendant, a very intelligent and ladylike woman, sat between two of her friends at the table, on the right of her counsel. Except for the fact that at frequent intervals during the proceedings she wrote on a tablet, which she then passed to her companions, there was nothing to indicate that she differed from any other woman who might be placed in the same unpleasant situation, but, unfortunately for her, this was her only means of communication, she having been denied the powers of hearing and speech from her birth.

The plaintiff applied for a divorce about a year ago, the case being tried by Judge Shaw, who granted a decree, but subsequently revoked it, hence this is a second trial of the case.

Ewing, who is an artist by occupation, alleges that he married the defendant at Milwaukee in January, 1883, but that she has continuously treated him in a cruel and inhuman manner, and that owing to her spiteful, vindictive, and unkind disposition, her ungovernable temper, and her slothful, untidy and careless habits, he is unable to live with her longer. He states that from April 15 to September 1, 1892, he and the defendant and their two little girls lived together in apartments at Mrs. Sarnow's lodging-house, at No. 217 South Main street, but that owing to his wife's filthy habits and abusive conduct the police were called in and he was compelled to leave. Although he has not cohabited with her for some time, he has tolerated her conduct and supported her on account of their children, but she does not care for or look after them, and has tried to alienate their affection for him.

The plaintiff and a witness named Sarnow, son of the landlady of the house where the Ewings lived, who admitted unblushingly to having ejected Mrs. Ewing from his mother's rooms because she was not wanted there, were the only witnesses examined during the day's session, the plaintiff being subjected to a very rigid cross-examination by defendant's counsel.

The case will be resumed today.

AN IMPORTANT WATER SUIT.

The trial of the case of E. J. Baldwin vs. the Sierra Madre Water Company, an action to enjoin defendant from diverting plaintiff's water supply, was commenced before Judge Shaw in Department Five yesterday. Messrs. Wells, Monroe and Lee representing the plaintiff, and Messrs. Lee and Scott appearing for the defendant corporation.

From the pleadings it was gathered that the plaintiff, Baldwin, acquired the title to his Santa Anita ranch by purchase from Harris Newmark, who, by a decree of the District Court of this county was, on April 15, 1874, adjudged to have the exclusive use of the whole of the waters of the Little Santa Anita Creek, which flows through the Little Santa Anita Ranch. It was also decreed that he should have the right to enter upon the land of the United States then in possession of one John Richardson for the purpose of improving the source of his water supply, repairing dams, ditches, etc., and said Richardson, his heirs, assigns, etc., were perpetually enjoined from interfering with or obstructing said Newmark's ditches, dams or water rights.

On April 25, 1881, Baldwin, who was then the owner of the entire ranch and its appurtenant water rights, conveyed 881 acres of land and one-half of the waters of the Little Santa Anita Creek to N. C. Carter, it being agreed that Carter was to pipe half of the water from the point where what was known as the Richardson fence received the water from the cañon, to the northern part of lot 28 of the Sierra Madre tract, each party to the agreement to pay half the expenses incurred thereby. Some time after this Carter purchased Richard's land, and on August 20, 1888, Carter and a number of others to whom he had sold pieces of his land, together with certain shares of water, conveyed all their individual interests in said water to the Sierra Madre Water Company, which had been incorporated in October, 1882. Carter also conveyed the land he had purchased from Richardson to said company, which proceeded to excavate a tunnel for the purpose of developing water. Plaintiff claims that by so doing, defendant diverted the source of certain springs from which he derived his supply of water, and that defendant threatens to obstruct the creek and divert the waters therfrom and take out his pipe. He, therefore, prays that an injunction be issued restraining defendant from interfering with his rights.

The defendant enters a general and special denial to each and every allegation, and files a cross-complaint asking that the title to said waters, which it acquired from Carter and his assigns, be quieted, and further, that it recover \$1,000 damages from Baldwin for interfering with its water rights, and that he be perpetually enjoined from doing so.

A number of witnesses were examined on behalf of the plaintiff during the day's session, but the trial of the case will in all probability occupy the time of the Court for several days.

ADMITTED INSANE.

Bernardina Pedronina, a native of Spain, 26 years of age, was adjudged insane and committed to the State Asylum at Stockton, by Judge Clark yesterday, in accordance with the recommendation of Drs. Ainsworth and Wernick, the examining commissioners.

Pleaded Not Guilty. George B. Simpson pleaded not guilty to the charge of adultery preferred by his wife, Annie B. Simpson, yesterday, before Justice Seaman. March 21 was set as a time for his trial.

PUBLIC WORKS.

Regular Weekly Meeting of the Board Yesterday.

Recommendations Adopted for Submission to the Council.

The Usual Amount of Routine Street Work Ordered.

A Little Tiff Between Councilmen Campbell and Innes About the Services of the Chain Gang—How It Came About.

The Board of Public Works met yesterday morning and made the following recommendations, which will be presented to the Council Monday:

In reference to the petition from J. R. Clark and others, asking to have Seventeenth street, between Grand Avenue and Hope streets, graded and paved, under specifications No. 5, with a redwood curb, we recommend that cement curbs be substituted, and that the petition granted, the City Engineer to present the necessary ordinance of intention.

In the matter of the fender presented to this Council and referred to this board for adoption for street cars, we recommend that the Pacific Railway Company put such on a trial for inspection by the Council and any other fender they may wish to exhibit on Wednesday the 28th of March, 1893, at 2 p.m.

In the matter of the petition from James M. Erwin et al., asking to have Bonne Brae street, between Temple and Bell streets, graded and paved, and bonds issued to represent the cost thereof, we recommend that the City Engineer make an estimate of the cost of the same, and if it exceeds the sum of \$1 per front foot of each side, then to present an ordinance of intention.

The trial of the case of William Stevens vs. W. C. Holman et al., an action to reform and foreclose a mortgage, was resumed before Judge Van Dyke yesterday morning, and, at the close of the evidence, was ordered to be submitted upon briefs to be filed in ten, five and twenty days, respectively.

The trial of the case of William Stevens vs. W. C. Holman et al., an action to reform and foreclose a mortgage, was resumed before Judge Van Dyke yesterday morning, and, at the close of the evidence, was ordered to be submitted upon briefs to be filed in ten, five and twenty days, respectively.

THE GRAND ARMY.

The Excursion Yesterday Was an Immense One.

The Grand Army Visitors See a Lot of Scenery.

Special Entertainments at Pasadena, Colton and Riverside.

Loaded Down with Oranges—Enthusiastic and Cheerful People View the Beauties of the Region.

The G.A.R. excursion around the Kite-shaped track yesterday was a notable one in many respects. First of all, it was a big one, exceeding by far the expectations of all concerned, crowding thirteen cars to an uncomfortable degree. Two trains, the first of seven and the second of six cars, left the Santa Fe about 9 o'clock, half an hour after the advertised hour of leaving. All these cars were filled with Grand Army veterans, some with their wives and daughters; members of the Woman's Relief Corps and the Grand Army ladies, more than eight hundred in all, wearing the bronze and silken badges of their orders.

Despite the crowded condition of the cars, which under the circumstances, was unavoidable, everybody was in good humor, looking forward with expectancy to a day of unique pleasure. The excursionists were welcomed at Pasadena by a juvenile drum corps, playing the enlivening tune of "Jaybird." "That is the tune that sent me to the army," said Capt. Johnson of San Jacinto.

The adult drum corps, which traveled en suite in the front end of the front car of the front train—if that is definite enough—gave one of its most enlivening quicksteps, which was almost enough to enthuse the ice-water tanks. Around the station was a crowd of people, all of them, apparently, members of a committee of welcome. All kinds of vehicles, the private property of citizens, were there also, and were quickly filled with strangers and driven over the pretty city.

Here again the immensity of the crowd was made manifest, as it far exceeded the facilities provided for the visitors' entertainment. Those who had a chance were riding, while the others lingered about and drank Hotel Green lemonade, served lavishly under the hotel balcony.

In the hurly-burly of leaving Los Angeles, the staffs of the three organizations were so divided that many of the officers were in the second train, and being transferred at Pasadena to the first section, they lost their chance at buggy riding.

An hour was passed thus in Pasadena, when the two trains in their original consecutive order proceeded eastward. No other stop was made until San Bernardino was reached, but the arrival at this junction point was without incident. No enthusiasm or free refreshments being discernable. From San Bernardino the trip began around the smaller loop, going by way of Highlands. Fleecy clouds hung low over the mountains, permitting the snow-covered peaks of Old Baldy and San Bernardino to glisten in dazzling iridescence above them. Though all, or nearly all, of the excursionists were residents of California, and familiar with mountain scenes, they experienced much delight in looking upon the changes of the cloud-draped panoramic Sierras. Those from the northern citrus belt looked with much interest upon the horticultural beauties nearer at hand, and compared what they saw with what they knew at home.

No stop for disembarking passengers was made on the circuit of the loop, the ride being continuous from San Bernardino back again to San Bernardino, which fact alone was something of a marvel to those who had not acquired a thorough understanding of this geographical peculiarity.

The train then went direct to Colton. A committee of Colton ladies had already pinned badges and orange flowers upon the breasts of the visitors, adding to the silken decoration of Pasadena and corps and post insignia. Upon disembarking at Colton the visitors were met by a committee and escorted to the pavilion of the Citrus Fair, marching in three lines, headed by the Little Boys' brass band and diminutive specimens of Uncle Sam and Columbia. The Pavilion was crowded by the interested visitors, who had been passed in review, and who used the forty-five minutes of time to good advantage in inspecting the products of Southern California.

Then the train loads of people went to Riverside. Here the numbers of strangers appalled the committees, who had arranged to provide for them. Riverside expected about two hundred and fifty people to visit her yesterday, but more than eight hundred came. A good dinner had been prepared for the party, but as it was not enough to go around, the visitors from north of the Tehachapi alone were taken care of, while the others were left to their own resources.

All the vehicles in the city had been called into requisition to give pleasant drives to the strangers, and were utilized to their full capacity during the two hours passed in Riverside and on that matchless boulevard leading to Arlington. At this station the last of the passengers were taken on board and the train started for Los Angeles in direct a course as the road would allow, the first section arriving in the city at about 9 o'clock last evening. The ride around the kite had been prolonged somewhat by the difficulties involved in handling so large a crowd, but even those who were most fatigued at the end of the figure 8 journey were glad they went.

AT THE SOLDIER'S HOME.

Visits of the Grand Army—Joy of the Veteran Invalids.

SOLDIERS' HOME, March 24, 1893.—[Correspondence of THE TIMES.] The visit of the delegates to the State Encampment of the Grand Army of the Republic to this home yesterday was an event that will linger in the memories of the old soldiers as long as there is one of them left, bringing them, as it did, into sympathetic touch with the outer world, and calling to mind those scenes of battle, skirmish, and the bivouac that took place at a time when they were not so old. Its counterpart will, in all probability, never be witnessed here again. The old boys were on their good behavior, and no cases of disorder were reported. This was gratifying to residents of the home, as it must have been to the visitors. Everybody entered into the spirit of the occasion to make the day an enjoyable one for our guests, and in doing this they were happy themselves.

As I looked into the kindly faces of those mothers, beaming with love and

benevolence, as they passed in review before the companies that had been formed in line to receive them, I thought of that other grand review at the close of the war, of the patriotic devotion of these same women, of their tireless labors among the sick and wounded of that great struggle, now hearing the end of their journey, and reared more than ever the God-like character of their work.

We are all marching to the same goal with velocity that we do not stop to consider. It is some consolation to have lived in an age that produced such men and women as the ones that stormed those works yesterday, and, after we are all gone and the memory of the war grows dimmed there may be some among the millions of the earth who will say that our lives were not altogether spent in vain.

FIRST PENNSYLVANIA CAVALRY.

A PIUS PRIEST.

The Late Father Casanova and His Noble Work.

Sketch of His Eminent Career—A Long Life of Good Deeds and Faithful Service in the Cause of the Master.

[The following authoritative sketch has been furnished for publication in THE TIMES.]

On the 11th of the present month the Catholic Church of Southern California sustained a heavy loss in the untimely death of the Very Rev. Angelo Delfino Casanova, rector of the parish of Monterey, and vicar forane, or rural dean, of the northwestern district of the diocese of Monterey and Los Angeles.

The deceased ecclesiastic was a native of the archdiocese of Turin, in Piedmont, Italy, and came to this country in the year 1860. In the following year he was appointed vicar of San Juan, to which charge was later attached that of vicar of the church at Pajaro, near Watsonville, where the Catholic Male Orphan Asylum now stands. On the 17th of January, 1883, he received the appointment of parish priest of Santa Cruz, a post which he filled most honorably until the 6th of October, 1888, when he was deposed, after having been rector of that parish for twenty-four years and five months. In March, 1888, he was made vicar forane, or rural dean, of the northwestern district, in addition to his pastoral charge.

The departed clergyman was the heir of a distinguished and very wealthy family of Piedmont. Two of his younger brothers were officers in the Italian army. When the new government commenced to manifest a spirit of hostility toward the church, Father Casanova prevailed upon his brothers to resign their commissions and leave the army of the excommunicated King. In recompense to them for, and though they might sustain in giving up their high military positions, he resigned his birthright in their favor, contenting himself with the position of the patriarchal funds. With the large amount of money thus placed at his disposal, Father Casanova was enabled to perform many acts of charity. In Monterey, with aid from the parishes, he built a handsome schoolhouse and pastoral residence, and spent a considerable amount in improving and beautifying the cemetery, the work being done without any expense to the diocese.

But Father Casanova's great work was undoubtedly the restoration of the Mission Church of San Carlos at Carmelo. He had long cherished the hope of seeing that noble ruin restored and again dedicated to Christian worship, and started a subscription to that end. The amount realized was, however, insignificant in comparison with the sum required, as it fell nearly \$15,000 short. This heavy deficit was supplied from Father Casanova's patrimony, and not, as was falsely stated in one of the Los Angeles papers last year, collected by a Spanish-American resident of this city. In this connection the following list of subscriptions toward the work, copied from the official records kept in the archives of the diocese of Monterey and Los Angeles may be of interest.

Rt. Rev. F. Mora, bishop.....\$ 500 00

OTHER DONATIONS.

William T. Garrick, gilded tablet on the church; W. M. Sheerin, memorial slab in sanctuary; J. R. Kelly, M. D. Sullivan and Peter Donahue, painting woodwork in church; R. E. White & Bros., the two stained glass windows, "St. Charles" and "Father Juiper Serra"; J. J. McDonald, the "star window."

MAIN STREET IMPROVEMENT.

The above figures give a sort of index to Father Casanova's character. Generous almost to a fault, the idol of his flock, the friend and model of his brother priests, the right hand of his bishop, it will be long before his place is filled. His funeral was attended by Bishop Mora, Vicar-General Adam, by a large number of clergymen, and by all the members of his bereaved flock.

WITH but little care and no trouble, the head and mustache can be kept a uniform brown or black color by using Buckingham's Dye for the whiskers.

HOUSE AND LOT.

An Encouraging Readiness on the Part of Buyers.

An Organization for Improvement of Main Street Property.

The Question of Bonds for a Storm Drain System.

Quick Sales That Indicate a Good Market—The Instantaneous Plan—The Country Toward the Ocean—Building Permits.

The heavy and persistent rain during the early part of the week again interfered with the consummation of several sales which are on the taps.

A FINE RESIDENCE SOLD.

One of the most important transfers of residence property that has taken place for some time was that of the Reddick property, on the southwest corner of Figueroa and Adams streets, which was sold during the week for \$27,500 to Col. George Roher, formerly of St. Louis, who lately purchased the Balridge ranch at Azusa for \$75,000.

The lot is 120 feet on Figueroa by 325 on Adams, with a large house and highly improved grounds. Figuring on the Adams street frontage, this is at the rate of about \$85 a foot, including improvements, a price which cannot be called high, as this is the choicest corner of the two choicest residence streets in Los Angeles. Judge Reddick, who now lives in Omaha, bought the property of Mrs. Longstreet in 1885 for \$20,000. Since then he has expended from \$30,000 to \$40,000 in improving the grounds, etc.

SAVERS OF THE ROOM.

There is an anxiety evinced on the part of some buyers to snap up lots upon which they have set their hearts, that reminds one forcibly of the days immediately preceding the late lamented boom.

An agent had been offering a lot and half—seventy-five feet—in the Bonnie Brae tract for \$1500. A would-be purchaser, who had several times in vain offered \$1400, came in again and paid a deposit on the lot at the rate of \$1500. Meantime, however, the owner had told the agent's partner to raise the price. The owner informed the buyer that he would let him have the lot, as a favor, at \$1750, which offer was at once accepted.

THE STORM DRAIN QUESTION.

At a recent session of the City Council, after a spirited discussion, a resolution that the Council call an election for the issuance of \$500,000 in bonds for building a storm water drainage system was adopted. The subject was brought up by complaints from property-owners and residents in the southwestern part of the city, as to the unpleasant condition of affairs in that section during and after each rain.

The southwestern portion of Los Angeles, which has become the most fashionable residence section of the city, also happens to be the lowest in elevation, much of the territory being below the level of the river at First street. It is consequently the natural outlet for the drainage of the city, which fact has been recognized in sewer construction.

The river formerly ran down San Pedro street, and out through what is now the Bon Ton residence quarter. However, society has set its stamp upon this favored section, and that is sufficient. The most beautiful homes in Los Angeles are located there. To live on Figueroa or Adams street is about equivalent to residing in Berkeley Square or on Park Place in London. It is a sort of semi-tropic patent of gentility, as it were, that they really desire to sell, they should not raise their prices extravagantly. The market is not yet very strong, and the incident advance in values may easily be checked by lack of judgment on the part of owners. If owners will meet buyers half way there is every prospect of a steady and continuous improvement in the market from now on.

OUR WESTERN SUBURBS.

T. H. Brotherton has bought another five acres in the Lick tract, at the rate of \$850 per acre, cash. This makes twenty acres that Mr. Brotherton has bought there within the past three weeks. That we are on the verge of a rapid settlement of the attractive foothill country between Los Angeles and the ocean is apparent, even to a superficial observer. The reasons that this settlement has been so long delayed are, first, lack of communication, second, inadequacy of water supply for irrigation, and third, the existence of large, unoccupied ranches between Los Angeles and the ocean. It is probable that all these obstacles will be removed within a year. The dummy railroad, now running regularly, and it will not be long before either that road is extended or the Los Angeles and Pacific road re-opened. There is an enterprise under consideration to bring water for irrigation from the Providencia ranch, near Burbank, where there is an ample supply. The subdivision of the Santa Monica and San Vicente ranches will shortly commence. As stated several weeks ago in THE TIMES, Messrs. Baker and Jones, the owners of this property, had different views in regard to the method of selling. Senator Jones desiring to offer tracts on easy terms, while Col. Baker wished to sell for cash. In consequence, the property, which consists of 80,000 acres, is now being segregated. As soon as this is accomplished the portion belonging to Senator Jones will probably be placed on the market.

The auction sale of small tracts at Colegrove has been postponed until to-day, on account of the weather.

MAIN STREET IMPROVEMENT.

Pursuant to a call issued by several business men, a meeting of property-owners was held in the Chamber of Commerce rooms this week, for the purpose of organizing a company to improve Main street. The object of the organization is to keep the street in good repair, erect suitable buildings upon it, encourage and patronize the stores there, and do all that is possible to restore Main street to its supremacy as a main artery for the transaction of business. The meeting adjourned, to meet in the same place on Tuesday next, at 8:30 o'clock p.m., when a permanent organization will be completed.

It is none too soon for the Main street property-owners to take some such step as this. It is a pity that they did not do something of the kind years ago. Unless they bestir themselves in a lively manner they will find that they are locking the stable door after the horse has been stolen. Since Wells-Fargo and the furniture company moved away, North Main, from Temple to the Plaza, has assumed a woe-begone appearance, while even from Temple to First street it is a long way from having the appearance of a first-class business thoroughfare.

The coming improvement of the Nordhoff corner, by the German-American Bank, will be a big step in advance, at an intersection which ought to be the second in importance of Los Angeles, but which, at present, has not a single first-class building on the corners.

Whether the Main street people can

restore to their street, north of Tenth, the position which it once occupied, is a doubtful question. It almost appears as if they had waited too long to turn the tide which the "Broadway squad" have, by persistent energy and councilmanic favor, directed into that thongfare. A year or more ago, when THE TIMES was strongly urging the opening of West First street, the fate in store for North Main, unless those interested there aroused themselves, was outlined. Those remarks are still more pertinent today. Of a hundred men interviewed at that time, three to the opening of First street, only three were against it, and two of those are large property-owners on North Main street. Yet the people of that street are more vitally interested in the opening of First street than those of any other section of the city. With the First-street hill left as it is, Seventh and Broadway will be the center of retail business ten years hence. And there will be many persons who would like to see just this thing happen, a fact which the Main street property-owners should bear in mind.

Another matter in which the Main street people showed themselves remiss was in failing to secure the old Courthouse as a site for the postoffice and other federal offices. It would have made an ideal site for this purpose, and would have helped to keep business from running away so fast as it is now doing. By raising their bid a few thousand dollars the property might have been

BUSINESS.**FINANCIAL AND COMMERCIAL.**OFFICE OF THE TIMES.
LOS ANGELES, March 24, 1893.

In San Francisco today the market was higher. The receipts included asparagus, rhubarb, peas, mushrooms and cucumbers. Potatoes were very firm; onions also advanced. Fresh fruit was cleaned up a little better; three carloads of apples came in, but no oranges. A small quantity of strawberries arrived from the South, but met with no sales. The market for butter was still weak, and eggs firm.

Bradstreet's report of clearing-house transactions for the week ending March 24 shows an increase of 34.4 per cent over the corresponding week of last year for Los Angeles, placing Los Angeles at the head of the list in the matter of increase. The table in full is as follows:

City.	Prct. Pt. Dec.
New York	47.881,000 6.6
Chicago	92,678,000 2.9
Boston	93,120,000 1.5
Philadelphia	60,877,000 7.8
S. L. New York	10,000,000 11.9
San Francisco	12,673,000 6.5
Baltimore	13,983,000 4.9
Pittsburgh	14,256,000 12.2
Ottawa	10,052,000 22.4
Kansas City	10,652,000 22.4
New Orleans	10,674,000 10.7
Minneapolis	4,469,000 10.6
Omaha	6,000,000 12.1
Denver	4,886,000 1.6

Total.	\$1,227,324,418 6.5

New York Stocks.

NEW YORK, March 24.—There was a complete change in the complexion of affairs at the Stock Exchange today. The bears were aggressive early in the day, when a sharp raid was made on Sugar, New England, Chicago Gas and a few other specialties; still later, other markets began buying movement began, in which commission houses were conspicuous. Purchases covered an unusually wide range, and the demand became so pronounced that the shorts took alarm and rushed in and tried to cover, with the result of making strong to buoyant speculation. The advance ranged from 10 per cent, and the market closed strong.

Government bonds closed steady.

NEW YORK, March 24.—MONEY—On call, easy; closed offered at 4 per cent.

PRIME MERCANTILE PAPER—@5 per cent.

STERLING EXCHANGE—Steady; 60-day bills, 4.80%; 4.80%; demand, 4.87%.
